General Order No. 100.0

Subject: Written Directive System	Effective Date: October 10, 2006	Revised Date: Jun 11, 2018
Title: Written Directive Manual	Pages: 3	Distribution: All Members
Cross Reference: CALEA Reference Chapter 12	Chief of Police Approval: Todd Pinion	

POLICY

A written directive system has been established in this agency in order to provide employees with a clear understanding of the constraints and expectations relating to the performance of their duties. A violation of any department policy may result in disciplinary action up to and including termination.

DEFINITIONS

Written Directive – Written directives are position statements by or authorized through the Chief of Police that guide or direct the actions and activities of officers. Directives communicate instructions, orders, and requirements to members of this Department. A written directive may be in the form of electronic media or print.

PROCEDURES

Procedures are written directives that serve as guidelines for carrying out Department activities. A procedure may be mandatory in tone through the use of “shall” or “must” rather than “should” or “may.” Procedures may sometimes allow different degrees of latitude and discretion in carrying out an activity.

- A. The written directive system should permit rapid access to individual policies, procedures, rules and regulations. The written directive system shall include the agency’s values and mission statement (CALEA 12.2.1a).
- B. Rules and regulations of the Department will be included within the Department’s Policies and Procedures manual and/or the City of Decatur Personnel Policy Manual.

- C. Department Rules and regulations will serve as a set of specific guidelines to which employees must adhere to.
- D. Only the Chief of Police or the designee (CALEA 12.2.1c) has the authority to approve agency policy (CALEA 12.2.1b).
- E. Maintenance of the written directive system is assigned by the Chief of Police to the CALEA Accreditation Management, who will be responsible for organization, review, revision, update, and purging of the agency policy manual on a continuous basis (CALEA 12.2.1b).
- F. Policies are developed based on a demonstrated need or a failure in a current policy.
- G. Any policy changes or creations shall be made in writing explaining the need for change or implementation to the CALEA Accreditation Manager. A draft revision will be created and sent to the Command Staff for review and approval.
- H. Approved new, or newly revised written directives shall be stored in PowerDMS. PowerDMS may be accessed both on and off duty (CALEA 12.2.2a).
- H. Written directives shall be disseminated to all affected personnel using the electronic policy management system – PowerDMS (CALEA 12.2.2a).
- I. The format of the Policies and Procedures of the Department will normally be as follows (CALEA 12.2.1d):
 - 1. Purpose: This section will outline the major reasons for the issuance of the Policy and Procedure.
 - 2. Policy Statement (CALEA 12.2.1f): This section will include a broad statement of Department principles. Policy statements usually do not establish fixed rules or set of procedures for conduct, but rather provide a framework for development of procedures
 - 3. Definitions (when applicable): This section will clarify terms, define meanings, assist with interpretation, and otherwise serve to promote understanding of the procedure.
 - 4. Procedures for carrying out agency activities (CALEA 12.2.1h): This section provides guidelines for carrying out the activities and mandated behavior of the Department. This section will also include the rules and regulations of each policy (CALEA 12.2.1g).
- J. Personnel are required to sign the directives upon dissemination within 10 days from the date of issuance. Where necessary, roll call or other training regarding the policy shall be conducted with policy distribution (CALEA 12.2.2c).
- K. Policies will be backed up on paper form and/or electronic media at specific accessible locations for reference (CALEA 12.2.2b).

- L. The Directive Manual can change daily. It is incumbent upon each officer to make themselves familiar with policies contained within the manual and to stay current with any changes that might be made within it.
- M. When a new policy is added, or language within a policy is changed that affects the intent, direction, or outcome of the policy, it will be distributed through PowerDMS and/or roll call training to each member of this department. Members shall acknowledge receipt of the policy, by the approved methods. Members are required to read each policy and if they have questions regarding the policy, they should address them with their commanding officer.
- N. Minor changes to policies (spelling, punctuations, etc.) will not be sent out in emails.
- O. The effective date of each policy and any revision date will be posted on each policy.
- P. Directives will be reviewed annually for needed revisions or updates.

**DECATUR POLICE DEPARTMENT**
Decatur, Alabama**General Order No. 104.0**

Subject: Written Directive System	Effective Date: May 27, 1997	Revised Date: April 24, 2012
Title: Jurisdiction	Pages: 3	Distribution: All Members
Cross Reference: CALEA Reference Chapter N/A	Chief of Police Approval: Todd Pinion	

POLICY

The Department will provide police service to all citizens within the jurisdiction of the City of Decatur, Alabama, and when requested, as much service as practical and feasible to concurrent law enforcement agencies.

DEFINITIONS

Concurrent: Having equal jurisdiction or authority to the Decatur Police Department.

Emergency Situation: An actual or potential condition that poses an immediate threat to life or property.

PROCEDURES**A. Geographical Boundary**

The geographic boundaries of the Department's jurisdiction are delineated in detail by both a computer assisted dispatch and jurisdictional and zone maps located at various places in the Department. Officers shall familiarize themselves with the city limits and police jurisdiction.

B. Statutory Authority

The Code of Alabama, 1975 addresses disaster assistance through the Emergency Management Network. The Code will be followed during a disaster situation. The Department will maintain a liaison with other emergency management authorities and coordinate the Morgan County Emergency Operations Plan with those affected agencies.

C. Non-Emergency

Responding outside the City of Decatur city limits (upon request of another agency) to provide services such as routine calls to accidents, check suspicious vehicles or persons, alarms, or check road conditions, etc. are performed on a regular basis and need only the

approval of a field supervisor to respond. It should be noted that actual reporting and responsibility for the call belongs to the agency requesting assistance unless otherwise approved by a supervisor of the Decatur Police Department.

D. Communications

The Department may render or receive assistance from other concurrent jurisdictions when situations exist to warrant such action.

1. The amount type, and extent of assistance provided by the Decatur Police Department will depend upon the situation and the availability of service. Human resources, equipment, and communications will be offered as directed by the Chief of Police or his designee.
2. Communications with other agencies will be coordinated through the Decatur/Morgan County Emergency 911 Center, in both emergency and non-emergency assistance situations.
3. Requests for outside assistance to the Decatur Police Department will be made by the Chief of Police, Division Commander, Shift Lieutenant, or their designee.
4. Federal law enforcement aid in emergency situations will be requested through the chain of command of the Department. The Chief of Police or his designee will make the request to the appropriate agency via the twenty-four hour emergency number.

E. Requesting Outside Assistance

During both emergency and non-emergency situations, the Department will fully assess the situation prior to the use of outside personnel. With the benefit of compatible communications systems and cross training of personnel, outside agencies could be asked to assist in comparable functions such as K-9 building search, Special Response Team situations, crowd control, traffic direction and control or prisoner security, as the need dictates.

F. Concurrent Jurisdictions

1. **Federal Offenses.** Federal agencies have jurisdiction over certain federal crimes regardless of the location of the incident.

a. Preliminary Investigations

- i. Officers receiving a report of federal crime (e.g., bank robbery) over which concurrent jurisdiction exists, must at a minimum, conduct a preliminary investigation. An Incident/Offense or arrest report should be completed and the crime scene processed if necessary.

- ii. The presence of a Federal agency at a crime scene does not relieve Department personnel from the requirement to conduct a preliminary investigation.

2. State Agencies

- a. The Alabama State Troopers have concurrent jurisdictions with the Decatur Police Department for traffic violations and incidents on some public roadways in our jurisdiction. State Troopers do not have the authority to enforce Municipal Ordinances.
- b. The Decatur Police Department will have primary jurisdiction for non-traffic crimes that are committed on roadways.

3. County Agencies

- a. The Decatur Police Department has primary responsibility for emergency and non-emergency situations occurring within its jurisdiction.
- b. The Morgan County Sheriff's Department has jurisdiction throughout Morgan County. If the Sheriff's Department discovers a non-emergency incident within the jurisdiction of the Decatur Police Department, the Police Department will ordinarily be notified and the appropriate unit(s) will respond. If the Morgan County Sheriff's Department discovers an emergency incident within the jurisdiction of the Decatur Police Department, the Sheriff's Department will ordinarily handle the incident until assistance arrives from the Decatur Police Department.

G. Jurisdictional Disputes

Disagreements as to jurisdiction or responsibilities will be resolved by supervisors at the scene, when possible. If needed, Department supervisors will contact the other agency's supervision and his/her own chain of command as needed until the problem is resolved. Under no circumstances will the public or officer safety be compromised while a jurisdictional question is under discussion. Department personnel will stabilize the situation until jurisdictional issues can be resolved.

H. Point in Contact

Point of Contact: In the event questions arise as to an exact location being within the jurisdiction, the Planning Department should be contacted.

When a person is deprived of his/her liberty the officer must be certain that what he/she is attempting to do cannot be accomplished in any other way. Officers shall always use the law of the State of Alabama in a prudent and thoughtful manner.

Decatur, Alabama

General Order No. 106.0

Subject: Written Directive System	Effective Date: December 3, 2010	Revised Date: September 16, 2021
Title: Search & Seizure	Pages: 9	Distribution: All Members
Cross Reference: CALEA Reference Chapter 1.2.3; 1.2.4; 1.2.8; 70.1.1	Chief of Police Approval Todd Pinion	

POLICY

The purpose of this policy is to establish guidelines for the search incident to arrest, the search at a crime scene, the search and seizure of motor vehicles, and the search and seizure of evidence during the execution of search warrants.

DEFINITIONS

Pat-down Searches: A "frisk" or external feeling of the outer garments of an individual for weapons only.

Reasonable Suspicion: Articulable facts that, within the totality of the circumstances, lead an officer to reasonably suspect that criminal activity has been, is being, or is about to be committed.

Field Interview: A brief detainment of an individual, whether on foot or in a vehicle, based on reasonable suspicion, for the purposes of determining an individual's identity and resolving the officer's suspicions concerning criminal activity.

Search: The examination of a person, property, place, or location by a person of authority while conducting a lawful investigation.

Administrative Search: Any search warrant that allows a building inspector, code official, etc. to search a building/dwelling for violations of the international building code, not criminal code.

Strip Search: Any search of an individual's body requiring the removal or rearrangement of some clothing to permit the visual inspection of genital areas, breasts and/or buttocks.

Body Cavity Search: Any search involving the internal physical examination of body cavities and, in some instances, organs or the contents of the stomach cavity.

Motor Vehicle: Any vehicle operating or capable of being operated on public streets or highways, to include automobiles, trucks, trailers, recreational vehicles, mobile homes, motor homes, and any other type of vehicle, whether self-propelled or towed. This policy does not apply to vehicles of any type that have been immobilized in one location for use as a temporary or permanent residence or storage facility, or which are otherwise classified by the law as residences or buildings.

Motor Vehicle Search: An examination of all or a portion of the vehicle with an investigatory motive (i.e., for the purpose of discovering fruits, instrumentalities, or evidence of a crime or contraband). A vehicle search may also be conducted to determine the vehicle identification number or the ownership of the vehicle.

Seizure: The taking of evidence, property, contraband, concealed weapons, stolen property, or other tools or "fruits of crime," into legal custody for the purpose of legal investigations and dispositions.

Contraband: Counterfeit currency, counterfeiting equipment, narcotics, illegal drug paraphernalia, firearms and other types of unlawful property that the mere possession of such material is an offense in itself.

No Knock Warrant: A no knock warrant is a search warrant authorizing officers to enter certain premises without knocking and announcing their presence or purpose prior to entering the premises.

PROCEDURES

Officers shall conduct field interviews and perform pat-down searches in conformance with procedures set forth in this policy.

A. Field Interviews

Officers will conduct field interviews as an investigative tool as well as a crime prevention and information gathering technique. The field interview is a very valuable tool in collecting, preserving, and disseminating information on potential suspects or criminal activity. Officers may stop individuals for the purpose of conducting a field interview only when reasonable suspicion is present.

1. Officers may stop individuals for the purpose of conducting a field interview only when reasonable suspicion is present.

2. The Officer must be able to point to specific facts that, when paired together with rational conclusions, reasonably warrant the stop. Such facts include, but are not limited to:
 - a. The appearance or demeanor of individuals suggest that they are part of a criminal enterprise or is engaged in a criminal act.
 - b. The actions of the suspects suggest that they are engaged in criminal activity.
 - c. The hour of day or night is inappropriate for the suspect's presence in the area.
 - d. The suspect's presence in a neighborhood or location is inappropriate.
 - e. The suspect is carrying a suspicious object.
 - f. The suspects' clothing bulges in a manner that suggest they are carrying a weapon.
 - g. The suspect is located in proximate time and place to an alleged crime.
 - h. The officer has knowledge of the suspect's prior criminal record or involvement in criminal activity.
 - i. The individual flees at the sight of a police officer.
3. When conducting a field interview, officers shall confine their questions to those concerning the suspect's identity, place of residence, and other inquiries necessary to resolve the officer's suspicions. However, in no instance shall an officer detain a suspect longer than is reasonably necessary to make these limited inquiries and resolve suspicions (CALEA 1.2.3a).
4. Suspects are not required, nor can they be compelled, to answer any questions posed during field interviews. Failure to respond to an officer's inquiries is not, in and of itself, sufficient grounds to make an arrest although it may provide sufficient justification for additional observation and investigation (CALEA 1.2.3a).
5. Officers shall not prolong the field interview beyond the period necessary to accomplish the purpose of the interview. Officers shall be aware that prolonging a field interview unnecessarily may cause a court to view the detention as an actual arrest (CALEA 1.2.3a).
6. Officers shall take precautionary measures for their own safety during a field interview, including handcuffing the suspect if necessary. Officers shall be aware that unnecessary or prolonged handcuffing during the field interview may cause a court to view the detention as an actual arrest.

7. Officers who reasonably believe that a person, under investigative detention during a field interview, may pose a threat to their safety shall conduct a frisk or pat-down search of the detainee's outer clothing for weapons. If an officer of the same sex as the detainee is not available, a limited pat down outside of the clothing may be carefully conducted with the blade or back of the hand. This pat down is conducted to locate weapons and/or contraband and should, if possible, be conducted in the presence of a second officer and must be recorded on the officer's in-car video system and/or body cam.
8. Officers conducting cursory frisks may seize an object when it becomes immediately apparent, with knowledge gleaned from the officer's sense of touch, that probable cause exists to believe the object is seizeable, known as the plain feel doctrine.
9. If during the field interview, it becomes apparent that there is probable cause to believe that the detainee has committed a criminal offense, the detainee may then be placed under arrest.

B. Consent to Search

Consent must be freely and intelligently given by an appropriate party and the search must be limited to the specified terms of the consent. When requesting consent to search from an individual, officers shall consider the following.

1. Voluntariness of consent – Consent to search must be voluntarily given and not the result of duress or coercion.
2. Authority to Consent – In order for consent to be valid, it must be given by someone possessing control over the area to be searched.
3. Scope – A person has a right to limit the scope of a consent search.

C. Search Incident to Arrest (CALEA 1.2.8c)

All persons under arrest shall be searched incident to arrest. Search incident to arrest is not a frisk based on reasonable cause, but instead a search following a lawful, custodial arrest based on probable cause. When a person has been arrested, a search incident to that arrest may be made in accordance with the following:

1. Officers shall conduct a thorough search of the person arrested (CALEA 70.1.1).
2. Any criminal evidence discovered during the search of the arrestee's person shall be seized and preserved in accordance with departmental procedures.
3. The search incident to arrest shall include not only the person of the arrestee, but also areas within the reach and control of the arrestee such as clothing, and any bags or packages he

or she may be in possession of at the time and place of arrest. Multiple searches of the person are permitted under this exception as custody is passed from officer to officer or facility to facility.

4. Strip searches and/or body cavity searches, as defined in this policy, shall not be conducted in the field.
5. Arrestees shall not be subject to strip searches unless the arresting officer has probable cause to believe the arrestee is concealing contraband or weapons. Any officer conducting a strip search of an arrestee must obtain approval from a supervisor (CALEA 1.2.8a), and document the reasons for such a search in a subsequent written report (CALEA 1.2.8d):
 - a. Strip Searches shall be conducted by the fewest number of personnel necessary and only by those of the same sex (CALEA 1.2.8b).
 - b. Strip Searches shall be conducted in a location that provides privacy from all but those authorized to conduct the search (CALEA 1.2.8b).
6. Should visual examination of a suspect during a strip search and/or other information lead an officer to believe that the suspect is concealing a weapon, evidence, or contraband within a body cavity, the following procedures shall be followed:
 - a. The suspect shall be kept under constant visual surveillance until a body cavity search is conducted or an alternative course of action taken.
 - b. The officer shall consult with his immediate supervisor to determine whether probable cause exists to seek a search warrant for a body cavity search (CALEA 1.2.8a).
 - c. If probable cause exists for a body cavity search, an affidavit and search warrant shall be prepared and presented to a judge as defined by policy.
 - d. If a search warrant is issued, a body cavity search shall be performed only by an authorized physician or by other medically trained personnel at the physician's direction (CALEA 1.2.8a).
 - e. Any evidence recovered shall be collected and stored as defined by policy.
 - f. If the body cavity search is made subsequent to arrest or if criminal charges result from the body cavity search, all events surrounding the search shall be documented in the arrest report. If the search was not subsequent to arrest and no charges result from the search, the incident shall be documented in an Incident/Offense Report (CALEA 1.2.8d).

- g. If criminal charges result from the body cavity search, the officer shall obtain copies of all bills related to the search and to submit the copies of the bills, along with a request for restitution, to the Decatur City Prosecutor or the appropriate District Attorney's Office.
- 7. Juveniles shall not be subject to a strip and/or body cavity search without a District or Circuit Court order. In the event a strip and/or body cavity search needs to be conducted, the guidelines in section **C. 4, 5, 6** of this policy shall be followed (CALEA 1.2.8c).
- 8. Whenever possible, searches incident to arrest shall be conducted by officers of the same gender as that of the person being searched (CALEA 1.2.8b).
- 9. A protective sweep in the home of the area of arrest shall be conducted; including places where someone could be hiding that would present a safety risk to officers affecting the arrest.
- 10. A vehicle can only be searched if it is reasonable to believe that the arrestee might access the vehicle at the time of the search or that the vehicle contains evidence of the offense of arrest.

D. Search of a Motor Vehicle

Such searches are to be conducted in strict observance of the constitutional rights of the owner and occupants of the motor vehicle being searched, and with due regard for the safety of all officers, other persons, and property involved.

- 1. Searches and entries of a motor vehicle without a warrant may be conducted in the following situations:
 - a. Consent – Officers may search a vehicle with the consent of the owner or operator. Written consent should be obtained whenever possible.
 - b. The occupants and passenger compartment of a vehicle may be searched for weapons if the officer has a reasonable belief that the occupant(s) may be armed.
 - c. Probable Cause - Officers are authorized to search a lawfully stopped vehicle for contraband when officers have probable cause to believe such items are contained in the vehicle.
 - d. Officers may enter a vehicle where circumstances require the officer to determine the vehicle identification number or vehicle ownership, and such information cannot be acquired from the exterior of the vehicle. Entries made to examine the vehicle

- identification number or to determine the ownership of the vehicle must be limited to actions reasonably necessary to accomplish these goals.
- e. Officers may enter a vehicle without a warrant when emergency circumstances make it necessary in order to protect life or property.
 - f. Impoundment, inventory searches (Covered under Directive 606.0).
2. Unlocked containers inside a motor vehicle that has been lawfully stopped can be searched under the following conditions:
 - a. Probable Cause;
 - b. Consent;
 - c. Incident to arrest and the search is performed with the reasonable expectation that it will produce evidence of the crime of arrest;
 3. Locked containers inside a motor vehicle that has been lawfully stopped can be searched under the following conditions:
 - a. A search warrant has been obtained;
 - b. Probable cause, but it is advised to seek a search warrant;
 - c. Consent;
 4. Items belonging to passengers inside a motor vehicle that has been lawfully stopped can be searched under the following conditions:
 - a. Probable Cause;
 - b. Consent;
 - c. Passengers belongings can be searched incident to the passenger's arrest and the search is performed with the reasonable expectation that it will produce evidence of the crime of arrest.
 5. Warrantless searches of motor vehicles are to be conducted only when lack of time makes it impractical for officers to obtain a warrant. When a vehicle has broken down, or there is otherwise no significant chance the vehicle will be driven away or that evidence contained within it will be removed or destroyed, the vehicle should be searched only after a warrant has been obtained.

**E. Search at the Scene of a Crime**

Officers shall consider the following procedures when initiating a search at the scene of a crime. Officers may conduct a warrantless entry of residences under the following conditions:

- a. Consent by the resident(s);
- b. Probable cause to believe:
 - i. Someone in the premises is armed and dangerous;
 - ii. Someone's life or personal safety is in danger;
 - iii. A serious crime is being committed and there is a likelihood the offender would escape or that evidence of a crime would be destroyed if time is taken to get a warrant.
 - iv. Officers shall secure a search warrant in all cases where circumstances do not provide for exceptions to the warrant rule.

F. Search of a Physical Location

1. Officers may conduct a warrantless search of a physical location when there is an:
 - a. Immediate and real danger or threat of public safety in the immediate vicinity; or
 - b. There exists the possibility that physical evidence may be concealed, damaged, or destroyed.
2. An officer can enter a location in response to an unexplained sound, gunshot, or a cry for help without postponing action until a search warrant has been obtained. Officers are not required to abandon the pursuit of someone whom they reasonably believe has just committed a serious crime, even if that person enters a private residence, apartment, or other similar location. The conditions that must be met for an entry without a warrant are:
 - a. There must be a solid basis for the belief that an emergency exists;
 - b. The emergency must be serious and substantial;
 - c. The emergency must not allow delay long enough to obtain a warrant; and
 - d. The search must not exceed the need created by the emergency, including necessary precautionary measures for the safety of the officer(s) and others.

3. The Decatur Police Department does not conduct "no knock" warrant operations unless exigent circumstances exist and authorized by the Chief of Police.

G. Administrative Search

If a Community Development Inspector or any other agency requests assistance from the Decatur Police Department pursuant to an administrative search warrant:

1. A CID supervisor will be contacted.
2. The CID supervisor will review the search warrant to ensure that it is properly signed.
3. The CID supervisor will assign an investigator, who will coordinate with Patrol and will assist Community Development or the requesting agency to execute the search warrant.

Note: An administrative search warrant should be served during the day.

H. Seizure of Property

1. Contraband, property, or weapons used by a person in custody to affect an escape or inflict injury or death, may be seized.
2. If there is probable cause to believe that a vehicle is forfeitable under federal or state law, no warrant is needed before seizing the vehicle from a public place. Once seized, vehicles must be inventoried in accordance with department policy.
3. Property inventoried and seized shall be processed in accordance with department policy.

The person designated as the computer forensic analyst should be contacted and involved in the seizure.

**DECATUR POLICE DEPARTMENT**
Decatur, Alabama**General Order No. 107.1**

Subject: Written Directive System	Effective Date: May 25, 2018	Revised Date: February 27, 2019
Title: Foreign Diplomats/Consular Officials	Pages: 16	Distribution: All Members
Cross Reference: CALEA Reference Chapters 1.2.5, 61.1.2	Chief of Police Approval: Todd Pinion	

POLICY

The Decatur Police Department will abide by all laws pertaining to Foreign Diplomats and Consular Officials.

DEFINITIONS

Diplomatic Immunity: A requirement by international law under which certain foreign government officials are not subject to the jurisdiction of local courts and authorities, for both their official and, to a large extent, their personal activities.

Inviolability: A principle embodied in international law that generally precludes law enforcement officials from handcuffing, arresting, or detaining certain foreign diplomatic officials, in any form, and forbids U.S. authorities from entering the residences, automobiles, or other property of protected persons. Where public safety is in imminent danger or it is apparent that a violent felony may otherwise be committed, police authorities may intervene to the extent necessary to halt such activity or defend themselves or others from personal harm.

NOTE: It is important to understand that the individual diplomat does not "own" immunity; such immunity can be waived, in whole or in part, by the nation that employs the diplomat. Waiver of criminal immunity in the face of criminal charges is not common, but it is routinely sought and occasionally granted. The ability of the Department of State to secure such a waiver depends in large part on the strength and documentation of the case at issue.

Diplomat: An official of a foreign government assigned to an embassy in Washington, D.C. Diplomats may also perform consular functions, and should be treated the same as a consular officer.

Diplomatic Agent: Ambassadors or designees, heads of missions, assistant ambassador, and members of their diplomatic staff. Those recognized by the United States as having diplomatic rank or title.

Consul or Consular Officer: A citizen of a foreign country employed by that government and authorized by both the sending and the host countries to provide assistance on behalf of that government to its citizens in another country. Such persons are generally assigned to a consular section of an embassy in Washington, D.C., or to a consulate in another U.S. city. Consular officers or consuls who are accredited by the U.S. Department of State bear identification cards to that effect issued by the U.S. Department of State.

PROCEDURES

A. PHYSICAL ARREST (CALEA 1.2.5, CALEA 61.1.2a)

As a rule, foreign diplomats cannot be arrested or detained. However, officers must follow the following procedures when called to the scene of a possible crime and/or involving a person who claims diplomatic or consular immunity:

1. Ask for an Official U.S. Department of State Identification Card. The Department of State issues driver's licenses to members of the foreign diplomatic and consular communities who enjoy some level of immunity from prosecution.
2. In all cases, including those in which the individual provides identification issued by the Department of State; a supervisor will respond to the scene to verify their status with the U.S. Department of State or in the case of the U.N. community, the U.S. Mission to the United Nations.
3. If the person is in possession of identification provided by the Department of State, the supervisor will contact the Department of State to verify the individual's status. Contact numbers should be listed on the back of the card. Currently, cards issued by the Department of State are color coded, depending on the individual's mission.
4. Officers will record all pertinent details from the diplomatic identification card, as well as all circumstances of the crime or incident.
5. If the person is not in possession of such identification, contact numbers are as follows: (202) 647-1985 between 8 a.m. – 5 p.m. EST. All other times (571) 345-3146 or toll free (866) 217-2089.

6. Should persons be unable to produce satisfactory identification, and the situation would normally warrant arrest or detention, officers should inform the individual that they will be detained until their identity and status can be confirmed. "Serious incidents" include a traffic citation when arrest would have been exercised if that person did not have immunity.
7. If the individuals enjoy personal inviolability, they may not be handcuffed, except when they pose an immediate danger to themselves and/or others, and they may not be arrested or detained. Once all pertinent information is obtained, they **MUST** be released.
8. In the event of driving under the influence, the diplomat will not be permitted to continue to drive a motor vehicle. The diplomat will not be restrained except in extreme cases and will not be subjected to any chemical tests. Standardized Field Sobriety Test may be offered for reporting purposes.
9. Officers may use only the level of response which is objectively reasonable to control the diplomats and to prevent them from causing harm to themselves and/or others.
10. Once the status is verified, officers must:
 - a. Release the diplomat to the custody of another person;
 - b. Allow the diplomat to contact another person;
 - c. With the diplomat's permission, offer transportation to the Police Department to wait for a friend or relative;
 - d. With the diplomat's permission, offer transportation to a location to allow for the recovery from such condition until such individual is able to drive.
11. The officer should prepare a report describing the circumstances of the incident.
12. The report will be submitted to the Chief of Police or designee through the chain of command.

B. CITATIONS (CALEA 61.1.2b)

A consular official/foreign diplomat is not subject to arrest or detention pending trial, except in the case of a serious crime (felony offense that would endanger the public safety) and then only pursuant to a decision by an appropriate judicial authority.

1. However, the mere issuance of a Uniform Traffic Citation or warning (written or verbal) for a moving violation does not constitute an arrest or detention in the sense referred to above.
2. Violators in this category may be processed as residents and in accordance with the State of Alabama Motor Vehicles and Traffic laws. However, violators may not be compelled to sign or accept the citation.
3. In the event of a traffic violation or warning, officers must contact their supervisor. The supervisor will determine if a citation will be issued to the individual.
4. If a citation is issued, a copy of such citation shall be forwarded to the Department of State as well as to the Chief of Police via the chain of command. The following circumstances also apply:
 - a. Failure of the diplomat to appear in court may not result in criminal or administrative consequences; however, the Department of State may use a citation and any reports as the basis for requesting an "express waiver of immunity" for citations that require a mandatory court appearance.
 - b. For pre-payable violations, the Department of State will give such individuals the options to pay the fine or obtain a waiver in order to contest the charge.
 - c. The diplomat has the ability to administratively void the citation through the Department of State.

C. PROPERTY INVIOABILITY and VEHICLES

The property of persons enjoying full criminal immunity (Diplomats), including their vehicles, may not be searched or seized. Such vehicles may not be impounded but may towed the distance necessary to remove them from obstructing traffic or endangering public safety.

1. If a vehicle that is owned by a diplomat is suspected of being stolen or used in the commission of a crime, occupants of such vehicle may be required to present vehicle documentation to allow for verification of the vehicle's status through standard access on NLETS.
2. If the vehicle is stolen or is being used by unauthorized persons in the commission of a crime, the inviolability to which the vehicle would normally be entitled must be considered temporarily suspended and normal search of the vehicle and, if appropriate, its detention is permissible.

3. Vehicles registered to consular officials and consulates, including those with full criminal immunity, are not inviolable and may be impounded. A supervisor will be notified in all such cases. The supervisor will authorize if the vehicle may be impounded.
4. The on duty Supervisor will contact the U.S. Department of State when a consular vehicle has been impounded or detained, so that the Office of Foreign Missions can follow up with the proper consular official or mission.

D. SPECIAL NOTES

1. Appropriate caution should not become a total "hands off" attitude in connection with criminal law enforcement actions involving diplomats.
2. Foreign diplomats who violate traffic laws may be cited as appropriate.
3. All allegations of serious crimes should be fully investigated, promptly reported to the U.S. Department of State, and procedurally developed to the maximum permissible extent.

Subject: Written Directive System	Effective Date: June 1, 1997	Revised Date: March 31, 2022
Title: Arrest Outside Jurisdiction	Pages: 2	Distribution: All Members
Cross Reference: CALEA Reference Chapter	Chief of Police Approval: Todd Pinion	

POLICY

To permit officers to make arrests while outside the Department's jurisdiction, as provided for by state law and as outlined in the balance of this directive.

PROCEDURES

- A. In accordance with Alabama State Law found in the Code of Alabama, 1975, Decatur Police Officers have arrest powers for state laws in any county in which Decatur has city limits. Officers have arrest powers as private citizens anywhere in Alabama as granted by Alabama State Law found in the Code of Alabama, 1975.
1. The Department encourages discretion when an officer is deciding whether to exercise these powers while outside departmental jurisdiction. In these instances, officers should defer to local law enforcement officers when possible.
 2. Procedures to be followed for "hot pursuit" and warrant arrests outside jurisdiction are addressed in separate written directives.
- B. The Decatur Police Department must be notified of any arrest made outside the Department's jurisdiction by any of its officers.
1. Officers will ensure an on duty sworn supervisor is given a copy of the arrest report by the end of the shift during which the arrest took place.
 2. The receiving supervisor shall forward the copy via the chain of command to the Chief of Police.

- C. All arrests made outside this department's jurisdiction should be affected and processed with the cooperation of the appropriate local law enforcement agency when possible.
 - 1. The outside jurisdiction arrest shall be processed within the county in which the offense was committed, as provided by Alabama State Law. The arrestee should be taken to the county jail of that venue and the officer should appear before the appropriate judge or magistrate to initiate court proceedings.
 - 2. Officers will not take outside jurisdiction arrestees to the Morgan County Jail or attempt to pursue the case through the Decatur Municipal Court.
- D. Procedures governing reporting the use of force by officers (regardless of jurisdictional considerations) are outlined in the written directive on the use of force.

**DECATUR POLICE DEPARTMENT**
Decatur, Alabama**General Order No. 108.0**

Subject: Written Directive System	Effective Date: August 7, 2013	Revised Date: September 25, 2017
Title: Unbiased Policing	Pages: 3	Distribution: All Members
Cross Reference: CALEA Reference Chapter 1	Chief of Police Approval: Todd Pinion	

POLICY

Maintaining public trust and confidence from the police department is critical. Public trust is achieved largely through fair and equitable treatment. This is a basic requirement of law enforcement and the right of all persons in our society. All persons having contact with members of this department shall be treated in a nonpartisan, fair, equitable, and objective manner, in accordance with all laws, and without consideration of their race, color, national origin, or other individual characteristics as distinctions or defined in this policy.

DEFINITIONS

Biased Policing - Discrimination in the performance of law enforcement duties or delivery of police services, based on personal prejudices or partiality by officers that interferes with their professional judgment, training, departmental policy, or adherence to law. Bias-based policing (also referred to in some instances as "profiling") includes but is not limited to prejudicial decisions affecting individuals in classes protected by federal and state law. It also includes, for example, persons with whom officers have such "personal involvement" that they cannot act impartially, as defined herein.

Equal Treatment - In the present context, equal treatment means that persons, irrespective of race or other distinction, shall be treated fairly under the same or similar circumstances. This *does not* mean that all persons in the same or similar circumstances can or must be treated *identically* in all cases. Reasonable concessions and accommodations may be, and sometimes should be made, when dealing with individuals with physical or mental disabilities, injury, illness, infirmity, or similar conditions, or when information about them necessitates different treatment.

Police Service Functions - Sometimes referred to as community caretaking functions, these are actions and activities that may not directly include enforcement of the law, but contribute to the overall well-being and safety of the public. Services include, but are not limited to such tasks as

assistance at fire scenes, traffic accidents, and medical emergencies, lifesaving services, crime prevention, proactive patrol, traffic control, public information, education, assistance, and similar activities.

PROCEDURES

A. Fair and Equal Treatment

1. Bias-based policing is prohibited both in enforcement of the law and the delivery of police services (CALEA 1.2.9a).
2. Officers may not use race, ethnic background, gender, gender identity, sexual orientation, religion, economic status, age, or cultural group as the sole criteria for determining when or how to take enforcement action or provide police services.
3. Officers must be able to articulate specific facts and inferences drawn from those facts that establish reasonable suspicion or probable cause to take any enforcement action.
4. Officers shall take equivalent enforcement actions and provide equivalent services to all persons in the same or similar circumstances.
5. Officers who cannot make objective judgments uninfluenced by prejudicial views or attitudes, intolerance to or preference for certain individuals that are unrelated to the situation at hand shall, as soon as reasonably possible, request that another officer assume responsibility for the matter.
6. Unless exigent circumstances exist, officers shall not engage in a law enforcement matter when it involves a family member, friend, or relative such that the officer's objectivity may be, or may appear to be, compromised.
7. Nothing in this policy prohibits officers from using the traits and characteristics of persons, such as race, ethnicity, or national origin *in combination with* other facts to assist in establishing reasonable suspicion or probable cause in the same manner that officers would use hair color, height, weight, or gender for such purposes.

B. Complaints

1. Officers who witness or who are aware of instances of bias-based policing shall report the incident to their supervisor.

2. The Department takes allegations of bias-based policing seriously. All such complaints shall be forwarded to the department's Office of Professional Standards for investigation.
3. The Office of Professional Standards shall maintain data relating specifically to complaints of bias-based policing. Information shall be provided to the Chief of Police or his designee in a manner most suitable for administrative review, problem identification, and development of appropriate corrective actions.

C. Training (CALEA 1.2.9b)

All officers will receive initial basic and in-service annual training and, where deemed necessary, remedial training on subjects related to police ethics, cultural diversity, police-citizen interaction, standards of conduct, conducting motor vehicle stops, related topics suitable for preventing incidents of biased policing, and biased issues including legal aspects.

D. Annual Administrative Review (CALEA 1.2.9c)

The supervisor of the Office of Professional Standards or designee will conduct a documented annual administrative review of agency practices to prevent racial or biased-based profiling and submit an overview, including public concerns, complaints and development of any corrective measures to the Chief of Police or designee.

**DECATUR POLICE DEPARTMENT**
Decatur, Alabama**General Order No. 109.0**

Subject: Written Directive System	Effective Date: September 20, 2017	Revised Date: September 20, 2017
Title: Compliance w/Constitutional Req.	Pages: 5	Distribution: All Members
Cross Reference: CALEA Reference Chapter 1.2.3	Chief of Police Approval: Todd Pinion	

POLICY

It is the policy of the Decatur Police Department to provide Department procedures to ensure that constitutional requirements are adhered to during criminal investigations. All sworn personnel must be cognizant of the fact that procedures used during criminal investigations will be scrutinized by the court for their validity.

PURPOSE

The purpose of this policy is to establish procedures to ensure compliance with all applicable constitutional requirements during investigations of criminal nature. This policy outlines procedures to be followed by all sworn personnel conducting interviews or interrogations of criminal activities.

DEFINITIONS

Interview: The process by which an Officer of the law seeks, obtains, and evaluates information given by persons having personal knowledge of events or circumstances of a crime.

Interrogation: Whenever a person in custody is subjected to either express questioning or its functional equivalent, with the purpose of obtaining information about the crime, eliminating innocent subjects from the investigation, identifying the guilty, and obtaining a confession.

PROCEDURE

The following procedures should be followed when conducting an interview or an interrogation of person(s) suspected of being engaged in criminal activities. All sworn officers are issued Miranda warning cards. See section B 2 for the full Miranda Warning (adult) and In Re Gault (Juvenile). In addition, note that Miranda Warnings do not apply when an officer is under an

administrative investigation by the Office of Professional Standards. In this case, the rules of *Garrity v. New Jersey* would apply.

A. INTERVIEWS (CALEA 1.2.3a)

Interviews can range from informal field interviews or crime scene inquiries to elaborate and lengthy office sessions.

1. Field interviews will be conducted under guidelines established in procedures governing field interviews.
2. During an investigative interview care must be taken not to violate interviewee's rights. A witness to a crime does not have to be advised of his/her Constitutional Rights.
3. Officers may question persons during general, on the scene investigations of the facts surrounding a crime.
4. Persons questioned during this time need not be advised of their Constitutional rights until the person is taken into custody, or otherwise deprived of, or may reasonably believe that they have been deprived of their freedom.
5. Information volunteered or spontaneous statements made by suspects are admissible as evidence and need not be preceded by Miranda warnings.
6. Any follow-up questioning initiated by an Officer shall be preceded by a Miranda warning.

B. INTERROGATIONS (CALEA 1.2.3b)

When the intent of the interview moves from being one of inquiry only, to guilt being suggested or likely, then it becomes an interrogation. Since the main purpose of an interrogation is evidence gathering, the interrogator must be aware of all the legal requirements to ensure admissibility.

1. When a suspect is in custody, regardless of the location, and is to be questioned about the aspects of the crime under investigation, he/she will be advised of their rights under "Miranda vs Arizona" or "In ReGault", whichever is applicable.
2. A sworn employee will read, either from a card or a prepared rights waiver form the following statement to the person to be interrogated:

- i. Miranda vs Arizona (Adult Warning):
 - a. Before we ask you any questions, you must understand your rights;
 - b. You have the right to remain silent;
 - c. Anything you say can be used against you in court;
 - d. You have the right to talk to a lawyer for advice before we ask you any questions and to have him with you during questioning;
 - e. If you cannot afford to hire a lawyer, one will be appointed for you before any questions if you wish;
 - f. If you decide to answer questions now without a lawyer present, you will still have the right to stop answering at any time.
 - g. You also have the right to stop answering at any time until you talk to a lawyer;
 - h. A lawyer will also be provided for you now, if you wish.
- ii. In Re Gault (Juvenile Warning):
 - a. You have the right to remain silent;
 - b. Anything you say can be used against you in court;
 - c. You have the right to talk to a lawyer and have one present with you while you are being questioned;
 - d. If you cannot afford to hire a lawyer, one will be appointed to represent you before any questioning, if you wish;
 - e. You can decide at any time to exercise these rights and not answer questions or make any statements;
 - f. If you are unable to pay for a lawyer and if your parents or guardian have not provided a lawyer, one can be provided at no charge;
 - g. If your counsel, parent, or guardian is not present, you have the right communicate with them, and if necessary, reasonable means will be provided for you to do so.

3. The prior section meets the requirements of the Fifth and Sixth Amendments to the Constitution as interpreted by the Supreme Court in the Miranda Case.
4. In addition, the Decatur Police Department requires that the following waiver of rights statement be read to the person to be interrogated:
 - a. I have read this statement of my rights and I understand what my rights are;
 - b. I am willing to make a statement and answer questions;
 - c. I do not want a lawyer at this time (adults), **or** I do not want to communicate or talk with counsel, parent or guardian (juveniles);
 - d. I understand and know what I am doing;
 - e. No promises or threats have been made to me and no pressure or coercion of any kind has been used against me.
 - f. If in a field situation, in addition to the above rights being read to a suspect from a card, the following questions should be asked prior to the suspect being interrogated:
 1. Do you understand each of the rights just stated to you?
 2. Do you understand that we are not threatening you, nor are we promising you anything, in order to obtain a statement from you?
 3. With these rights in mind, do you wish to talk to us?

Note: The refusal to answer by a suspect will not be considered a Miranda Rights waiver.

- g. If a form was used to advise the person of his/her rights, the interrogator should obtain a signature from the person confirming that he/she was advised of his/her rights. In a field situation, the officer should note the time the rights were given and record the time in the appropriate reports.
5. If the person to be interrogated requests an attorney, no further questions may be asked pertaining to the crime at hand. If the person is being arrested, identification questions may be asked (CALEA 1.2.3c).

6. If the person initially waives his/her rights and cooperates, then requests an attorney, all questioning ceases until he/she can either obtain a lawyer or have one appointed (CALEA 1.2.3c).
7. Statements made after a person invokes his/her rights are not admissible in court, unless:
 - a. The person reinitiates the conversation about the crime in question;
 - b. The person has been re-advised of his/her Miranda Rights; and

The response to resistance must be objectively reasonable. The officer must only use that response to resistance which a reasonably prudent officer would use under the same or similar circumstances (CALEA 4.1.1).

Deadly Force: Any use of force that creates a substantial risk of causing death or serious physical injury.

Non-deadly Force: Any use of force other than that which is considered deadly force. This includes any physical effort used to control or restrain another, or to overcome the resistance of another.

Belief: The facts or circumstances are such that would cause an ordinary and prudent person to act or think in a similar way under similar circumstances.

De-escalation: Taking action or communicating verbally or non-verbally during a potential force encounter in an attempt to stabilize the situation. De-escalation may include the use of such techniques as command presence, advisements, warnings, verbal persuasions and tactical repositioning.

**Decatur Police Department**
Decatur, Alabama**General Order No. 111.2**

Subject: Written Directive System	Effective Date: November 26, 2018	Revised Date: November 6, 2020
Title: De-escalation Techniques	Pages: 3	Distribution: All Members
Cross Reference: CALEA Reference Chapter 4	Chief of Police Approval Todd Pinion	

POLICY

Members of the Decatur Police Department are routinely confronted with situations when a response to resistance must be exercised to effect an arrest and to protect the safety of the public. Officers should attempt to achieve control of the subject through persuasion, warning and verbal commands.

PURPOSE

The purpose of this directive is to provide law enforcement officers with guidelines for the use of de-escalation techniques.

DEFINITION

De-escalation: Taking action or communicating verbally or non-verbally during a potential force encounter in an attempt to stabilize the situation. De-escalation may include the use of such techniques as command presence, advisements, warnings, verbal persuasion and tactical repositioning.

PROCEDURES**A. De-escalation**

De-escalation tactics and techniques can be used to minimize or deter the need for a force encounter by effectively communicating with a subject; however, this is based upon the subject's level of cooperation with the de-escalation tactics/techniques and should not compromise officer safety.

1. Whenever possible, and when such delay will not compromise the safety of the officer or the public and will not result in the destruction of evidence, escape of a suspect or commission of crime, officers should allow an individual time and opportunity to submit to verbal commands before force is used.
2. Tactical communication may be used to obtain more time for additional officers to arrive or to stop the confrontation in an effort to establish a dialogue with the subject.
3. Officers may employ the following techniques during a traffic stop or contact with a subject:
 - a. Use respectful language;
 - b. Introduce themselves;
 - c. Provide the officer's ID number and name of the Department;
 - d. Provide the subject with the reason for the stop or contact;
 - e. If applicable, ask the subject questions such as justified reasons for any violation;
 - f. Listen to the subject's answer without interruptions if the subject is speaking civilly;
 - g. Acknowledge the subject's responses;
 - h. Ask for a form of identification as applicable;
 - i. If needed, request additional information such as a tag receipt, proof of insurance, etc.
 - j. Make a decision, i.e. arrest, citation, warning or release without any further action.
 - k. If applicable, assist the subject safely back into traffic.
4. If the subject is not cooperative or becomes uncooperative at any time during the contact the officer should:
 - a. Ask the subject for his or her cooperation.
 - b. Set the context. A subject who is asked to do something and refuses will often comply if the officer explains why they are being asked.

- c. Present the subject with options to achieve any lawful objectives and give them the choice to comply. If the subject asks any questions, officers should not ignore or dismiss their questions, but rather attempt to answer them.
 - d. The officer may ask the subject if there is anything the officer could say to earn the subject's cooperation.
 - e. After evaluating the circumstances, the officer may disengage, wait for back up or escalate the response to resistance as needed.
5. If the contact evolves into a force encounter, the force utilized to overcome their resistance should be deescalated once subject control has been achieved.
 6. Officers should always remain aware of their surroundings.
 7. Officers should use distance and/or cover as an advantage when dealing with resistant persons while understanding that the closer the subject is to the officer the less time the officer has to react to any actions from the subject.
 8. Tactical repositioning may be utilized to increase distance, make use of obstacles, increase visual awareness and possibly provide time for additional officers to arrive in order to assist. Repositioning is not a primary tactic to be used, but can be used in situations when there is sufficient time and opportunity to do so and should in no manner jeopardize officer safety.
 9. During the use of or attempted use of these tactics and techniques, officers should remain vigilant for hidden motives, threats and non-verbal cues that could indicate a threat to the officer or others.

B. Training

Personnel will receive de-escalation training annually.

POLICY

Rapid control of the subject exhibiting symptoms of excited delirium (hereon ExDS), and transfer to the care of emergency medical providers should be the primary objectives of law enforcement officers unless other action is necessary in order to protect officers or others. It is the policy of the Decatur Police Department that all personnel who observe person(s) exhibiting symptomatic behavior consider the possibility that the situation is a medical emergency that could result in sudden death.

PURPOSE

The purpose of this policy is to establish guidance and direction in the handling of individuals who appear to be in a state of excited delirium (ExDS).

DEFINITIONS

EXCITED DELIRIUM SYNDROME (ExDS): A medical disorder generally characterized by observable behaviors including extreme mental and physiological excitement, intense agitation, hyperthermia (elevated body temperature) often resulting in nudity, hostility, exceptional strength, endurance without apparent fatigue, and unusual calmness after restraint accompanied by a risk of sudden death.

MEDICAL SYNDROME: A collection of behavioral and physiological signs and symptoms of a medical disorder known to frequently appear together but without a full understanding of their underlying cause or causes.

PROCEDURE**A. Initial Call**

1. Calls associated with ExDS often include descriptions by complaint of wild, uncontrollable physical actions, and hostility that comes on rapidly.

2. Where there is suspicion from the complainant that ExDS might be involved, communications personnel shall request the following types of information:
 - a. Specific behaviors of the subject;
 - b. Where the subject has been or is using PCP, methamphetamine, cocaine, alcohol, or other mind-altering substances separately or in combination.
 - c. Where the subject has a history of mental or physical illness or substance use.
3. When information suggest ExDS, a sufficient number of officers to physically control the subject should be dispatched together with EMS personnel, all of whom should be alerted to the possibility that the call might involve ExDS.
4. An on duty supervisor shall respond to all such calls for service, whenever possible.

B. Assessment

While ExDS cannot be diagnosed in the field, Officers should be cognizant of specific signs and symptoms that may indicate a person is in state of excited delirium. These can include one or more of the following:

1. Constant or near constant physical activity;
2. Irresponsiveness to law enforcement presence;
3. Nudity/inadequate clothing that might indicate an attempt to self-cooling;
4. Elevated body temperature/hot to the touch;
5. Rapid breathing;
6. Profuse sweating;
7. Extreme aggression or violence;
8. Making unintelligible, animal-like noises;
9. Insensitivity to/extreme tolerance of pain;
10. Excessive strength (out of proportion);
11. Lack of fatigue despite heavy exertion;
12. Screaming and incoherent talk;

13. Paranoid or panicked demeanor; and but not limited to
14. Attraction to bright lights, loud sounds, glass, or shiny objects.

C. Control

Physical control must be affected quickly to minimize the intensity and duration of resistance and struggle, which often are direct contributors to sudden death.

1. When responding to a call involving possible ExDS, officers shall do the following:
 - a. Eliminate unnecessary emergency lights and sirens;
 - b. Ensure that an adequate number of backup officers have been dispatched to affect rapid control of the suspect;
 - c. Ensure that EMS is on scene or enroute. Whenever possible, EMS should be on site when control is initiated.
2. If the subject is responsive to verbal commands:
 - a. One officer should approach the subject and employ verbal techniques to help reduce his or her agitation before resorting to the use of force.
 - b. The officer should not rush toward, become confrontational, verbally challenge, or attempt to intimidate the subject, as he or she may not comprehend or respond positively to these actions and may become even more agitated or combative;
 - c. Ask the subject to sit down, which may have a calming effect; and
 - d. Be prepared to repeat instructions or questions.
3. Officers need to be aware that pepper spray, impact weapons, and electronic control devices (ECD) used in drive stun mode are typically ineffective due to the subject's elevated threshold of pain.
4. If an ECD is used in probe mode, the officer shall energize the suspect no longer than necessary to overcome resistance. The subject should be handcuffed while still under the effects of the ECD.
5. However, a physical takedown using a swarming technique is an effective means of obtaining compliance as long as an adequate number of officers are available. A coordinated restraint plan should be devised quickly before implementing this approach.
6. Officers should only use those restraints that appear necessary to control the situation and

only for the period of time required.

7. When restrained, officers should position the subject in a manner that will assist breathing, such as placement on either side of the subject, and avoid pressure to the chest, neck or head.
8. If possible, reasonable steps should be taken to avoid injury, such as moving the subject from asphalt to a grassy area to reduce abrasions and contusions.
9. Officers should not attempt to control continued resistance by pinning the subject to the ground or against a solid object, using their body weight.
10. Whenever possible, officers should check the subject's pulse and respiration on a continuous basis until transferred to EMS personnel.
11. Officers shall ensure the airway is unrestricted and be prepared to administer CPR or an automated external defibrillator (AED) if the subject becomes unconscious.
12. Following a struggle, the subject should be showing normal signs of exertion such as heavy breathing.
13. However, if the subject becomes calm and breathing is not labored during or after the application of restraints while officers are still gasping for air, it might be an indication that the subject is in jeopardy and requires immediate medical to avoid cardiac arrest.
14. Individuals officers who encounter persons exhibiting symptoms of ExDS should adhere to the following guidelines:
 - a. When there is no apparent threat of immediate injury to the subject or others, the officer should not attempt to take physical control of the subject. This would likely precipitate a struggle and exacerbate the subject's physical and emotional distress. The officer should wait for backup and EMS assistance before attempting to control the subject.
 - b. If the subject poses a threat of death or serious bodily injury to the officer, others, or to himself or herself, apart from the dangers inherent in ExDS alone, intervention should be taken using that level of force reasonable necessary to control the individual.
 - c. If it can be determined that the subject has been under duress for an extended period of time, the symptoms of ExDS appear acute, and EMS is not readily available, the officer should consider affecting control and transporting the subject to the nearest medical facility.
 - d. This decision should be based largely on whether law enforcement backup and/or

EMS assistance is forthcoming, and the officer's judgment as to his or her ability to gain control without undue personal risk of bodily harm.

D. Emergency Medical Response

1. As soon as control is obtained, pre-staged EMS personnel should examine the subject and provide emergency medical aid as necessary, to include sedation and cooling.
2. If sedation is authorized, officers shall work with EMS to control the subject for the purpose of drug administration.
3. Whenever possible, an officer should accompany the subject to the medical facility for security purposes and to provide assistance as necessary.

E. Reporting

Reporting of ExDS incidents is critical for purposes of post-incident personnel review and debriefing, training, creation of a historical record to respond effectively to any civil litigation that might arise, and to respond effectively to inquiries concerning the incident from the community and the media. Officers shall follow standard incident documentation procedures and ensure that the following items, at a minimum, are included:

1. Conditions at the incident scene;
2. Description of the subject's behavior and its duration;
3. Description of what the subject said during the event;
4. Type of and duration of resistance;
5. Actions taken to control the subject;
6. Restraints used on the subject and the length of time applied;
7. Location of the restraints on the subject;
8. Response time and actions taken by EMS;
9. Means of transportation and total elapsed time of transport;
10. Behavior of the subject during transport;
11. Means of resuscitation, if applicable;
12. Vital signs, especially body temperature;

13. Ambient temperature at the time of the incident;
14. Results of tests and medical assessments taken by EMS personnel and emergency medical staff;
15. Results of autopsy, if applicable;
16. Information from relatives and friends of the subject that can provide insight to the potential causation of the incident;
17. If applicable, Use of Force forms.

F. Training

The Decatur Police Department shall ensure that officers are trained for such incidents, including yearly detection of ExDS, instructions in defensive tactics recommended for use when dealing with ExDS subject, tactics and techniques that should be avoided, and protocols for interfacing with EMS personnel.

1. The designated replacement will have the full responsibility and authority commensurate with the position being filled.
2. Replacements will be selected from the ranks of employees of similar classification, when possible.

F. Span of Control

1. A reasonable limit will be placed on the number of employees who report directly to the Chief of Police and all other command and supervisory personnel. The nature of the job being performed, the complexity of the task, the size of the area to be supervised, and the experience level of the employee and supervisor will serve as criteria for determining the proper supervisor/subordinate ratio.
2. A Division Commander will be responsible for ensuring proper span of control under their command.

1. All employees are expected to observe the established chain-of-command.

4. It will be the employee's duty to request permission to bypass rank when department related problems arise that cannot be satisfactorily resolved with the immediate supervisor. Employees may bypass rank when they wish to discuss private, personal, or confidential matters directly with the Chief of Police.
5. All employees will be encouraged to use the chain-of-command to make recommendations or suggestions for improvements in the administration, organization, management, or operations of the Department. Recommendations to any command level, via chain-of-command, will not be stopped by any preceding level of command. A commander may disagree with a recommendation from a subordinate orally or in writing; however, the original unaltered recommendation will be forwarded through the chain-of-command to the designated recipient in a timely manner.

H. Lawful Orders (CALEA 12.1.3)

Employees will obey all lawful orders from supervisors, including any order relayed from a supervisor by a member of the same or lesser rank once verified. Employees, regardless of rank or position, will obey lawful orders promptly.

1. The term "lawful order" will be construed as an order in keeping with the performance of any duty prescribed by law or rule of the Department, or for the preservation of order.
2. 6. Irresponsible or capricious reports will be considered serious misconduct.

Title: Assignments	Pages: 3	Distribution: All Members
Cross Reference: CALEA Reference Chapter	Chief of Police Approval: Todd Pinion	

POLICY

It is the policy of this Department to establish requirements, conditions, and processes for handling assignments and transfers of all sworn personnel.

DEFINITIONS

Assignment – The posting of an officer to a position or duty, which can be created, changed, vacated or filled at the discretion of the Chief of Police. An assignment to a position or duty requires no posting of vacancy prior to being carried out and can be done with or without the request of the officer being assigned.

Seniority – For the purpose of this policy, seniority is based upon the current employment date as a police officer. If necessary, the City of Decatur Human Resources Department rules of seniority will be used if more than one officer was hired on the same date.

Shift – Time of duty hours, not crew or team assignment.

Transfer – Moving of an officer from one position or duty to another at the request of the officer.

Vacancies/Openings – A position or duty which has been created, vacated, or expanded, at the discretion of the Chief of Police.

Rank – Any police officer above the class title of Police Officer as described by the City of Decatur Human Resources Department.

PROCEDURES**A. Ranking Officers**

1. Ranking Officers may be assigned as needed at the discretion of the Chief of Police, without a selection process or the posting of a vacancy. The department may notify

ranking officers of a vacancy and allow the same submission of request as those granted to non-ranking officers. Seniority shall be considered in all transfers and assignments of this nature but it shall not be the sole determining factor.

2. Once a ranking officer has been assigned to a particular entity, their assignment to a shift and duty days will be at the discretion of their Commander. Seniority shall be a consideration in the assignment process.

B. Non-Ranking Officers

1. New employees will be assigned at the discretion of the Chief of Police.
2. After the probationary period, Officers assigned to Patrol or Traffic are eligible to participate in the shift preference process.
3. Shift Preference Process:
 - i. The shift preference process is an opportunity for Police Officers to select which shift hours they prefer to work. Patrol and Traffic officers must submit a Shift Preference Form each November to the Captain of Operations via chain of command. Grouped by seniority, the lowest 20% of officers and those with less than 2 years of service will be assigned a shift at the discretion of the Captain of Operations without regard to seniority. The remaining officers with more than 2 years of service will be assigned a shift based upon seniority, shift request and shift availability.
 - ii. The Captain of Operations will assign all Patrol and Traffic Officers to a shift. Shift preference assignments will begin January 1st of each year. All transfers and assignments are made to benefit the department as noted within the special consideration section which follows.
4. Officers assigned to Detectives are assigned a shift at the discretion of their Commander. Seniority shall be considered in the assignment process.

C. Transfers

1. An announcement of availability will be posted for a period of 7 days when there is a transferable opening in a non-ranking position. Officers interested in the posted transfer must submit a letter of interest stating their qualifications prior to the end of the 7th day. All letters should be submitted through the chain of command. The Captain of the affected area of the vacancy will review all information available and may make a selection from the submitted request. If however, it is in the best interest of the Department the posting period may be extended or the position may be filled as an assignment.

2. When there is a transferable opening in a ranking position, an announcement of availability will be sent to eligible officers by email. The notice will contain the last day for request to be submitted. Seniority shall be a consideration.

D. Assignment

Assignments are made at the sole discretion of the Chief of Police. Any position or duty is subject to being filled in this manner. Assignments are made for the benefit of the Department.

E. Temporary Hardship Request

1. Hardship requests for transfers or reassignments are classified as:
 - i. **Personal Hardship:** A condition or circumstances of the officer which necessitates temporary assignment to a specific shift or duty hours. This could be medical, educational, or otherwise. If medical, a letter of recommendation from a physician will be required but will not be the sole determining factor in the request.
 - ii. **Immediate Family Medical Hardship:** A medical condition of a family member of the officer which necessitates assignment to a specific shift or duty hours.
 - iii. **Family Crisis Hardship:** A family hardship includes marital difficulties, immediate childcare issues, etc.
2. Officers requesting a hardship transfer or reassignment must submit it in writing to the Chief of Police through the chain of command. All hardship transfers or assignments are temporary and if granted are good for only 90 days. An extension request must be filed 14 days prior to expiration.
3. An officer on a hardship assignment will immediately notify their supervisor in writing of any change in the status of the hardship situation. Should a hardship situation no longer exist or the extension of a hardship is denied, the officers shall be reassigned back to the appropriate position, shift or duty.

F. Special Consideration

All transfer and assignments are made to benefit the department. Therefore, because of special circumstances including an officer's abilities, skills and special training, an officer may be transferred or assigned without regard to the shift preference process. The department must also comply with any policy regarding interdepartmental relationships as defined or regulated by Department Policy and/or City Policy.

Employees should submit the leave of Absence request ninety days prior to accepting orders for military training or upon receipt of orders to allow the Department sufficient time to make necessary adjustments in manpower, etc.

Deployment & Reintegration

General Order No. 312.0

Subject: Written Directive System	Effective Date: November 22, 2016	Revised Date: August 21, 2019
Title: Progressive Discipline	Pages: 7	Distribution: All Members
Cross Reference: CALEA Reference Chapter 26	Chief of Police Approval: Todd Pinion	

POLICY

It is the policy of the Decatur Police Department to foster a program of discipline where the discipline is viewed as training, counseling, or development through correction and/or training. This policy has been instituted in order to provide a basic guideline for fair and consistent application of discipline.

PROCEDURES**A. TRAINING AS A FUNCTION TO IMPROVE EMPLOYEE PERFORMANCE
(CALEA 26.1.4a)**

1. Training, note to file and counseling are not disciplinary actions. However, they may be effective in combination with, or in place of disciplinary action to correct misconduct attributable to a training deficiency.
2. If a supervisor believes that training is necessary to assist personnel in performing at an acceptable level, or training is more appropriate than punitive discipline, a request in writing must be submitted to the Division Captain via the chain of command.
3. If the request is approved, the following criteria must be considered:
 - i. Specific training classes/programs to be successfully completed;
 - ii. Time line for expected improvements in performance;
 - iii. Consequences for failure to improve;
 - iv. A documented review will be submitted to the Division Commander and upon completion of the required training, and a copy of the review will be placed in the Division Commander's file and Training Division's file.

**B. COUNSELING AS A FUNCTION TO IMPROVE EMPLOYEE PERFORMANCE**
(CALEA 26.1.4b)

1. Supervisors have the authority to counsel personnel under their command to correct minor acts of misconduct.
2. Counseling should result in improved work performance, work habits, attitude, and behavior by defining the area(s) of performance needing improvement.
3. A note to file is an option a supervisor can use when initiating employee development.
4. A counseling statement will be completed when conducting counseling sessions of recurring previously addressed issues in formal counseling sessions. The statement will be signed by the employee and the supervisor acknowledging that counseling was provided. A copy of the statement will be placed in the Division Commander's file and Office of Professional Standards' file.

C. DISCIPLINARY PROCESS (CALEA 26.1.4c)

1. Support of the Progressive Discipline procedures is a responsibility shared by all members of the Department.
2. Supervisors are responsible to motivate, counsel, coach and train individual officers so that they achieve self-discipline.
3. Supervisors are given the responsibility to initiate corrective action on employees when violations occur.
4. Failure of a supervisor to take corrective action on an employee for failing to follow established policies may constitute dereliction on the part of that supervisor.
5. The disciplinary process is designed to improve employee's performance.
6. Progressive Discipline Steps (CALEA 26.1.4c)
 - i. Oral Reprimand
 - ii. Written Reprimand
 - iii. Recommend Suspension
 - iv. Recommend Demotion
 - v. Recommend Termination

7. Each progressive step will outline, on the approved form, what infraction or violation has occurred and what corrected behavior is expected out of the employee. The supervisor will also outline what steps the employee can take to accomplish the desired behavior.
8. Steps of progression could range in time from 3-18 months with an extension approved by the Chief of Police, unless specified by the appointing authority.
9. When another step in the progression progress is exacted, the time period will start over.
10. The usual progression of discipline will start from step one and move through step five. Due to the nature or severity of the incident the Chief of Police has the authority to start the discipline progression at any one of the steps.
11. Discipline need not be progressive for offenses that the Chief of Police has determined to be serious.

POLICY

It is the policy of the Decatur Police Department to provide an early intervention system to identify employees who may be experiencing difficulty in the performance of their duties.

PURPOSE

A comprehensive Personnel Early Intervention System (PEIS) is an essential component of good discipline in a well-managed law enforcement agency. The early identification of potential problem employees and a menu of remedial actions can increase agency accountability and offer employees a better opportunity to meet the agency's values and mission statement.

DEFINITIONS (CALEA 35.1.9a)

Performance Factors: Measurable work related factors as follows: complaints, response to resistance reports, traffic accidents, job related injuries, and use of excessive personal leave.

Standardized Criteria Threshold: Standardized number of occurrences for each performance factor used to establish a warning flag by identifying patterns of stress-induced or performance problems.

A. SUPERVISORS' RESPONSIBILITIES (CALEA 35.1.9f)

Maintaining and reinforcing employee conformance with the standards of conduct and behavior of the department shall be the responsibility of the supervisors (Sergeant, and Lieutenants, or respective immediate supervisors). In order to ensure that patterns of misconduct are properly abated, supervisors:

1. Shall familiarize themselves with the employees under their supervision, and closely observe their general conduct and appearance on a daily basis;
2. Should remain alert for indicators of behavioral problems or changes that may affect an employee's normal job performance;
3. Should assess situations where an employee is perceived to be having or causing problems and determine the most appropriate action;
4. Have the responsibility to continually monitor the behavior indicative of the need for a performance review.
5. Should determine if there is a need to activate the PEIS following the guidelines established in this written directive, based on (CALEA 35.1.9a):
 - a. Note to file documentation and/or any disciplinary actions;
 - b. At fault traffic collisions;
 - c. Domestic Disputes;
 - d. Indications of alcohol and/or substance abuse;
 - e. Accuracy and quality of work;
 - f. Neatness, appearance and habits;
 - g. Care of city equipment;
 - h. Employee relations;

 - r. Judgment;
 - s. Abrupt changes with regard to tardiness, absenteeism, erratic mood swings; and unreasonable irritability or aggressiveness, or repeated instances of failure to act or overreaction in the line of duty (Documented by a Note to File);
 - t. Indications of work being performed below the average or adequate range required and that improvement is needed;
 - u. Indications of work being performed is unacceptable and that immediate improvement is required.
6. Document employees' actions in accordance with this directive and other department directives.

B. OFFICE OF PROFESSIONAL STANDARDS' RESPONSIBILITIES (OPS)

OPS will regularly monitor the designated computer program continuously for trigger factors of an employee's performance when such employee has incidents in the following categories and timeframes, whether sustained or not (CALEA 35.1.9c).

1. Trigger Factors – Nine (9) Months (CALEA 35.1.9a, CALEA 35.1.9b)

- a. Three (3) Response to Resistance reports;

- a. Citizen complaints;
- b. At fault accidents;
- c. Vehicle pursuits;
- d. Employee Complaints; and
- e. Response to Resistance Reports.

C. PROCEDURES

The agency's PEIS should be initiated when certain types of incidents occur and there should be an evaluation of collected material (**CALEA 35.1.9c**).

1. Supervisors will review any alerts to determine if the actions of the employee are reasonable with no need for further action, or if further investigation is necessary to determine the potential need for intervention for the employee. The supervisor will review alerts with the employees. Supervisors will report their findings and recommendations, reporting the reasons for their conclusions.
2. The report of the supervisor's findings will then be forwarded to the employee's unit lieutenant for review. If no problems are noted, the employee's supervisor will send the results of the review to the respective Division Commander via the chain of command. The Division Commander will then forward a copy of the review to OPS, who shall serve as the record keeper.
3. If a problem is noted with an employee which generated an alert then a PEIS report must be completed and submitted to the Chief of Police via the chain of command by the employee's supervisor or OPS, which ever applies. The report will document what corrective action was taken and/or any recommendations, following the guidelines established in the Progressive Discipline written directive.

4. Affected employees shall be notified in writing that they have been identified by PEIS and of the actions for which they were identified.
5. OPS will track all data relating to the PEIS and will generate reports as needed for employees being identified as showing symptoms of job related stress and/or job related performance problems. The reports shall be submitted to the Chief of Police.
6. All generated reports shall be filed in a secure area.

D. REMEDIAL ACTION (CALEA 35.1.9g)

2. Offer the employee assistance through the City of Decatur's formal Employee Assistance Program when deemed appropriate (CALEA 35.1.9h); or
3. Take any other action deemed necessary and appropriate by the Chief of Police.

E. REPORTING

All reports of formal complaints will be used by supervisors as a resource in helping to determine if job stress or performance problems exist with an employee (CALEA 35.1.9f).

1. Officers are required to report violations and/or incidents of misconduct by other employees. Additionally, officers will report any circumstance, situation, conduct or behavior that indicates other employees may be experiencing a problem that could affect their performance and/or safety of those employees or others (CALEA 35.1.9d).
2. If an employee is concerned that they present a safety issue to themselves or to others, they are required to report the concerns to their immediate supervisors.
3. The supervisor receiving such a report will make a determination if the circumstances warrant immediate action (CALEA 35.1.9f).
4. Any concerns will be reported as soon as possible to any supervisor. The supervisor is responsible for bringing the concern to the Officer of Professional Standards through the chain of command.

5. Supervisors will complete a PEIS report form anytime the PEIS is initiated.

1. If a person is considered missing endangered or at-risk, an Investigator will be notified.

 - a. Not reside in an apartment.
 - b. Be dependable, reliable and available for calls outside the normal duty hours.
 - c. Have no prior disciplinary actions against them for the past 24 months.
 - d. Have at least two years of continuous service with the department.
 - e. Have an overall satisfactory rating on the most recent evaluation.

Note: Candidates will be interviewed with the final approval from the Chief of Police.

2. New canine handlers must complete the Basic Canine Handler Course before operating as k-9 handlers (CALEA 41.1.5d).
3. Canine teams will receive k-9 in-service training at least monthly (CALEA 41.1.5d).
4. Canine teams must receive USPCA certifications and complete annual recertification. Failure to meet required USPCA annual training standards will result in de-certification of the canine team and removal of the team from the canine unit until recertified (CALEA 41.1.5e).
5. Records documenting the use and the proficiency of individual canines in drug detection shall be maintained by the training unit.
6. Each canine handler shall maintain a current "handler's log" recording all information on all training, certifications, awards, and other information designated by a supervisor (CALEA 41.1.5f).
7. Officers may request canine team assistance through their immediate supervisor. The supervisor authorizing the canine deployment should respond to the scene. (CALEA 41.1.5a).
8. The canine handler should recommend to the on-scene supervisor the best tactical application and deployment of the canine (CALEA 41.1.5a).
9. Canines will only be deployed by their handler, based on the handler's training.
10. Only canine handlers will operate the canine vehicle, unless during emergency situations.

B. Canine Selection, Evaluation and Pre-Service Training (CALEA 41.1.5b)

Canines will be selected, evaluated and initially trained in accordance with the following:

1. Canines will be selected and purchased based upon the needs of the department.
2. The department will work with available vendors to arrange an in person assessment before purchasing.
3. All canines will be evaluated by a veterinarian prior to purchasing and a certificate will be provided by the vendor.

4. All newly purchased canines will receive an initial 14 week training course with their new handler before entering service.
5. Canines that are unable to complete the initial training will not enter service and may be returned to the vendor.

C. Disposition of Canines

A recommendation to retire a canine may be instituted at any level. However, approval of such recommendation may only be made through the chain of command. Upon approval of such recommendation by the Chief of Police, the canine may be retired to the care of its handler. If the canine has been in service under more than one handler, the Chief of Police will make a decision as to its disposition. The following may apply:

1. A canine handler may apply to take possession of his dog when the dog is retired from duty or relieved due to injury.
2. If the handler is transferred, promoted or retires the decision will be made whether to retrain the dog for another handler. The decision will be based on the suitability for retraining the canine. If the canine is determined unsuitable for retraining, the handler may apply to keep the canine.

D. Use of the Canine For Criminal Apprehension (CALEA 41.1.5a)

1. At least one of the following criteria must be met before using the canine for a criminal apprehension:
 - a. Suspect is wanted for a felony or crime of violence;
 - b. To defend the handler or other officers or third parties from assaults which could result in serious physical injury;
 - c. To overcome violent or assaultive behavior or a threat, if the officer reasonably believes that the suspect poses an articulable threat of harm to the officer or others and that a lesser degree of force would be insufficient or impractical.
2. Canine handlers will only allow their canines to engage a suspect by biting if the suspect poses a risk of danger to the handler or others or is actively resisting or escaping. In the case of concealment, handlers will not allow their canine to engage a suspect by biting if a lower level of force could reasonably be expected to control the suspect or allow for apprehension.

3. In instances when a canine apprehends a suspect by biting, the handler will call the canine off at the first moment the canine can be safely released, taking into account that the average person will struggle if seized or confronted by a canine. Struggling alone will not preclude the release of the canine.
4. A Canine response to resistance is not considered a use of deadly force. Canine response to resistance is governed by the following United States Supreme Court Case:

GRAHAM v CONNOR (CALEA 41.1.5I)

490 U.S. 386 (1989)

COURT'S RULINGS, FINDINGS AND COMMENTS:

The Supreme Court ruled in Graham that excessive force must be analyzed under the Fourth Amendment's objective reasonableness test. The application of this test requires an analysis of the totality of the circumstances, including these factors to determine if the seizure is reasonable:

1. The severity of the crime at issue;
 2. Whether the suspect poses an immediate threat to the safety of law enforcement officers or others; and
 3. Whether the suspect is actively resisting arrest or attempting to evade arrest by flight.
 - a. The reasonableness of an officer's response to resistance must be judged from the perspective of a reasonable officer on scene, rather than with the 20/20 vision of hindsight.
 - b. The calculus of reasonableness must embody allowance for the fact that police officers are often forced to make split-second judgments about the amount of force that is necessary in a particular situation, in circumstances that are tense, uncertain and rapidly evolving.
- **The decision to deploy a canine for criminal apprehension shall be based upon the aforementioned criteria.**

E. Use of the Police Canine For Tracking (CALEA 41.1.5a)

1. All tracking is done with the canine on a leash utilizing the tracking harness. The choice of the leash shall be made by the canine handler based on the environment and terrain (CALEA 41.1.5a).

- a. The long leash may be used in open terrain for control of the canine while still allowing as much area as possible to be searched.
- b. The short leash may be used in urban areas where sight distances are shorter in order to enable the canine handler to have greater control over and maintain constant visual contact with the canine.
2. A canine team may be utilized at any crime scene where the offender has fled on foot and it is possible that the offender could be located and/or evidence recovered. Canine teams may also be used to search for lost or missing persons (CALEA 41.1.5a).
3. A canine team may be used to conduct a track if the suspect is wanted for a felony, a crime of violence, or is reasonably believed to be armed.
4. Whenever a canine team is deployed for the purpose of performing a track, the handler will announce loudly and clearly that a canine will be deployed and that anyone approached by the canine should announce their presence and remain still.
 - a. The announcement will be made unless the supervisor authorizing the deployment reasonably believes that the suspect is armed and the verbal warnings will cause unnecessary danger to the officer or others.
 - b. If an announcement is made, the canine handler shall wait a sufficient period of time between the announcement and the canine deployment to allow the suspect to surrender.
 - c. At least one cover officer will follow the canine team on the track unless otherwise directed by a supervisor.
 - d. Canines shall not be used to search for other animals (CALEA 41.1.5a).
 - e. Before authorizing the use of a canine team, the supervisor must weigh the urgency of locating the person with the risk of the person being bitten by the canine.
 - f. Canine teams can be used to locate small children, especially if there is a reasonable suspicion of foul play or a belief that serious bodily harm or death will occur if the child is not located immediately. When the use of a canine is deemed necessary, the risks of an accidental bite to the subject shall be explained to the parents or next of kin and their approval obtained before using the dog.

**F. Building Searches (CALEA 41.1.5a)**

1. A canine team may be used to conduct a search of a commercial building when.
 - a. A canine building search is anticipated, the building perimeter shall be secured by police personnel.
 - b. A preliminary search by officers should not be conducted as this will interfere with the canine's ability to discriminate scents.
 - c. The on-scene supervisor has ensured that all known persons are evacuated from the building which is to be searched.
 - d. There is a possible unlawful entry indicated or detected by any person;
 - e. An alarm has been activated regardless of an apparent forced entry, as long as it can reasonably be determined that no innocent persons are inside and a request for the search has been made by the investigating officer;
 - f. Premises are found insecure by an alarm, a citizen's report or a police officer so long as it can be determined that no innocent persons are inside;
 - g. There is an unlawful entry, regardless of the size of the building, or there is a reasonable belief that an offender is inside the building.
2. The canine may be unleashed during a building search unless there is an imminent risk of injury to innocent persons within the facility.
3. Generally, the canine should not be released until a backup officer is available to work with the canine team (CALEA 41.1.5a).
4. Building searches will be conducted off leash, whenever possible.
5. The owner, manager, or responsible person should be present before the building is searched, except when waiting for the responsible person is not feasible due to a tactical situation.
6. No persons will be allowed inside a building that is to be searched or to participate in a track except at the request of the handler.

7. Except in exigent circumstances or when there is an imminent danger of death or serious injury, the canine should be kept in visual contact by the canine handler (CALEA 41.1.5a).
 - a. Prior to releasing the canine into a building to search for hidden suspects, the canine officer will issue at least two loud verbal warnings to alert anyone inside the building that a canine is about to search the premises (CALEA 41.1.5a).
 - b. The canine handler issuing the announcement shall wait a sufficient period of time between the announcement and the canine deployment to allow the suspect to surrender (CALEA 41.1.5a).
 - c. If the building is large, the handler will repeat the announcement loudly and clearly as the search proceeds onto different floors or parts of the building where the initial announcement may not have been heard (CALEA 41.1.5a).

G. Explosive Detection Canine Team (CALEA 41.1.5a)

Because of the high risk of danger to the public and officers when a bomb or other explosive devices are detected, the use of a canine team trained in explosives detection may be considered for the following.

1. Assisting in the search of a building, structure, area, vehicle or article when an actual or suspected explosive device has been reported or located;
2. Assisting with searches at transportation facilities and vehicles (e.g. school buses and public transportation).
3. Searches at special events, VIP visits, official buildings and other restricted areas. Searches of individuals should remain minimally intrusive and shall be strictly limited to the purpose of detecting explosives.
4. Assisting in the search of scenes where an explosion has occurred and an explosive device or secondary explosive device is suspected.
5. Investigation of suspicious packages and bomb threats.
6. Sweeping staging areas of critical incidents.
7. Sweeping areas prior to large crowds (sporting events, political rally or any large scale public or private gathering).

8. At no time will an explosive detection trained canine be used to render a suspected device safe or clear.

H. Residences (CALEA 41.1.5a)

The following criteria must be met prior to conducting a search of any residence by a police canine, when there is reasonable information indicating unlawful entry to a residence (CALEA 41.1.5a):

1. A supervisor should be at the scene or otherwise authorize the residence search by a police canine; and
2. The owner, lessee, or person living at the residence should be present.

I. Article Searches (CALEA 41.1.5a)

1. Canine teams can locate articles by alerting to the residual human scent adhering to the article.
2. An article search may be conducted either off-leash or using the long leash depending on location, terrain, and the presence of bystanders.
3. Canine teams dispatched for evidence or property searches at a crime scene or incident shall (CALEA 41.1.5a):
 - a. Meet with the on-scene supervisor or investigator regarding the property sought.
 - b. Announce to anyone who may be in the area that the canine is going to be deployed and instruct them to call out or otherwise make their presence known.
 - c. Refrain from using the canine to search for evidence in areas that present a danger to the team, including drug searches when chances of the canine ingesting or inhaling narcotics are high.

J. Bomb and Threat Calls (CALEA 41.1.5a)

Use of the Explosive Detection Canine (EDC)

1. The EDC officer will respond to bomb and threat calls for service as needed.

2. The on scene supervisor will maintain and secure the scene until the EDC officer arrives and organizes the search of the premises.
3. The EDC officer will recommend the best tactical application and deployment of the canine to the on scene supervisor.

Note: EDC teams are not diagnostic tools. An item/package should never be handled by an EDC officer until a certified bomb technician has conducted a diagnostic procedure. EDC teams do not clear packages or locations, but simply alert to the odor of explosives present at the time of the search.

K. Crowd Control (CALEA 41.1.5a)

1. Canines will not be used for crowd control.
2. Deployment of canines to a crowd control event will only be done at the direction of the Chief of Police or designee.
3. Canines will not be used for intimidation during a crowd control event.

L. Canine Searches for Drugs (CALEA 41.1.5a)

Without consent, canine searches (sniffs) for drugs are authorized only when there is no reasonable expectation of privacy in the item(s) to be searched. If not specifically addressed in the following guidelines, officers shall use the foregoing principle and the direction of the canine supervisor to determine the permissible scope of canine searches.

1. Public Facilities and Places:
 - a. Police canines may not be used to sniff luggage or related personal items *in the physical possession* of (i.e. control of or close proximity to) an individual in a public facility or place unless:
 - ii. There is reasonable suspicion that the personal possession contains illegal drugs or evidence of a crime, and
 - iii. The time required to conduct the sniff is limited in duration.
 - b. Police canines may be used to sniff luggage or other personal effects of an individual on either a random or selective basis if the items are not in the possession of the owner (for example, on conveyor belts, in the possession of baggage handlers, etc.).

- c. Whenever possible, exploratory sniffing in public facilities should be conducted with the advance knowledge of the facility manager. It should be conducted without interference or annoyance to the public or interruption of facility operations.
2. The responding handler will evaluate the scene and make a determination as to the feasibility of the canine search.
3. Canine searches of the exterior of residences, either individual dwellings or the common areas of multiple dwellings, are not permitted without a search warrant or as otherwise permitted by state or federal law.
4. Canine drug sniffs of motor vehicles.
 - a. A canine sniff of the exterior of a vehicle is not a search and may be conducted when the vehicle is lawfully detained, such as during a traffic stop or at a roadblock or when the vehicle is parked in a public place.
 - b. Without reasonable suspicion that the vehicle contains contraband, the officer shall not detain the vehicle longer than the amount of time necessary to conduct the business of the traffic stop.
5. If the officer develops reasonable suspicion that contraband is located in the vehicle, the officer may now detain the vehicle and occupants for a reasonable amount of time while a canine is summoned. Failure of the vehicle operator to consent to search cannot form any part of basis for reasonable suspicion.
6. Once the canine sniff of the exterior of the vehicle produces a positive alert, this alert establishes probable cause.
7. Under the automobile exception to the search warrant requirement, all parts of the vehicle may be searched without a warrant.
8. The canine may be used for the interior search (after the positive canine alert on the exterior).
9. If, after a positive canine alert on the exterior of the vehicle, no contraband is located in the vehicle, officers may conduct a search of the occupants.

**M. Limitations (CALEA 41.1.5a)**

Limitations on canine usage may exist based on team capabilities, training, environment, behavioral nature of a canine, etc. Canine handlers will evaluate whether limitations may impair or prevent the usage of a canine and discuss all concerns with a supervisor. (CALEA 41.1.5a).

N. 24 Hour Canine Care and Maintenance (CALEA 41.1.5G)

1. Police canines shall not be used for breeding, participation in shows, field trials, exhibitions or other demonstrations either on or off-duty unless authorized by the Chief of Police.

- c. The officer shall take color photographs of the affected area if possible prior to and following medical treatment. The photographs shall be attached to the I/O Report or the Response to Resistance Report.
2. If the skin is broken as a result of a bite that occurred in the line of duty, per the Code of Alabama Section 3-7A-9(g), the canine will be exempt from mandatory quarantine. However, the canine will be examined by a licensed veterinarian at the end of ten (10) days following the date of the bite. Decatur, Alabama**

General Order No. 412.0

Subject: Written Directive System	Effective Date: June 18, 2009	Revised Date: September 21, 2018
Title: Dealing with the Mentally Ill	Pages: 5	Distribution: All Members
Cross Reference: CALEA Reference Chapters 41.2.7	Chief of Police Approval Todd Pinion	

POLICY

Dealing with individuals in enforcement and related contexts who are known or suspected to be mentally ill carries the potential for violence, requires officers to make difficult judgments about the mental state and intent of the individual, and requires special police skills and abilities to effectively and legally deal with the person so as to avoid unnecessary violence and potential civil litigation. Given the unpredictable and sometimes violent nature of the mentally ill, officers should never compromise or jeopardize their safety or the safety of others when dealing with individuals displaying symptoms of mental illness. In the context of enforcement and related activities, officers shall be guided by Alabama state law regarding the detention of the mentally ill. The following procedures shall apply.

DEFINITIONS

Mental Illness: Subjects may suffer from mental illness if they display an inability to think rationally, exercise adequate control over behavior or impulses (e.g. aggressive, suicidal, homicidal, sexual), and/or take reasonable care of their welfare with regard to basic provisions for clothing, food, shelter, or safety.

PROCEDURES

A. Recognizing Abnormal Behavior (CALEA 41.2.7a)

Mental illness is often difficult for even the trained professional to define in a given individual. Officers are not expected to make judgments of mental or emotional disturbance but rather to recognize behavior that is potentially destructive and/or dangerous to self or

others. The following are generalized signs and symptoms of behavior that may suggest mental illness, although officers should not rule out other potential causes such as reactions to narcotics, alcohol temporary emotional disturbances that are situationally motivated. Officers should evaluate the following and related symptomatic behavior in the total context of the situation when making judgments about an individual's mental state and the need for intervention absent the commission of a crime.

1. Mentally ill persons may show signs of strong and unrelenting fear of persons, places, or things. The fear of people or crowds, for example, may make the individual extremely reclusive or aggressive without apparent provocation.
2. An individual who demonstrates extremely inappropriate behavior for a given context may be emotionally ill.
3. Mentally ill persons may be easily frustrated in new or unforeseen circumstances and may demonstrate inappropriate or aggressive behavior in dealing with the situation.
4. In addition to the above, a mentally ill person may exhibit one or more of the following characteristics:
 - a. Abnormal memory loss related to common facts such as: name, home address, (although these may be signs of other physical ailments such as injury or Alzheimer's disease)
 - b. Delusions, the belief in thoughts or ideas that are false, such as delusions of grandeur or paranoid delusions.
 - c. Hallucinations of any of the five senses: touch, taste, smell, hearing, seeing.
 - d. Extreme fright or depression.

B. Determining Danger

Not all mentally ill persons are dangerous and some may represent danger only under certain circumstances or conditions. Officers may use several indicators to determine whether an apparently mentally ill person represents an immediate or potential danger to themselves, the officer, or others. These include the following:

1. The availability of any weapons to the suspect.

2. Statements by the person that suggest to the officer that the individual is prepared to commit a violent or dangerous act. Such comments may range from subtle innuendo to direct threats that, when taken in conjunction with other information, paint a more complete picture of the potential for violence.
3. A personal history that reflects prior violence under similar or related circumstances. The person's history may be known to the officer, or family, friends, or neighbors may be able to provide such information.
4. Failure to act prior to arrival of the officer does not guarantee that there is no danger, but it may tend to diminish the potential for danger.
5. The amount of control that the person demonstrates is significant, particularly the amount of physical control over emotions of rage, anger, fright, or agitation. Signs of a lack of control include extreme agitation, inability to sit still or communicate effectively, wide eyes, and rambling thoughts and speech. Clutching one's self or other objects to maintain control, begging to be left alone, or offering frantic assurances that one is all right may also suggest that the individual is close to losing control.
6. The volatility of the environment is a particularly relevant factor that officers must evaluate. Agitators that may affect the person or a particularly combustible environment that may incite violence should be taken into account.

C. Dealing with the Mentally Ill (CALEA 41.2.7c)

These guidelines should be followed in all contacts, whether on the street or during more formal interviews and interrogations. Should the officer determine that individuals may be mentally ill and a potential threat to themselves, the officer, or others, or may otherwise require law enforcement intervention for humanitarian reasons as prescribed by statute, the following responses may be taken.

1. Request a backup officer especially when the individual will be taken into custody.
2. Take steps to calm the situation such as: eliminating emergency lights and sirens, dispersing crowds, and assuming a quiet non-threatening manner when approaching or conversing with the individual. When violent or destructive acts have not occurred, avoid physical contact, and take time to assess the situation. An officer that has been trained in Crisis Intervention (CIT) may be used as needed.
3. Move slowly and do not excite the disturbed person. Provide reassurance that the police are there to help and that they will be provided with appropriate care.

4. Communicate in an attempt to determine what is bothering them. Relate your concern for their feelings and allow them to ventilate their feelings. When possible, gather information on the subject from acquaintances or family members and/or request professional assistance if available and appropriate to assist in communicating with and calming the person.
5. Do not make threats of potential arrest or other police action as this will create additional fright, stress, and potential aggression.
6. Avoid topics that may agitate the person and guide the conversation toward subjects that help bring the individual back to reality.
7. Always attempt to be truthful with a mentally ill individual. If the subject becomes aware of a deception, he may withdraw from the contact in distrust and may become hypersensitive or retaliate in anger.

D. Taking Custody or Making Referrals (CALEA 41.2.7b)

Based on the overall circumstances and the officer's judgment of the potential for violence, the officer may make mental health referrals when, in the best judgment of the officer, the circumstances do not indicate that the individual must be taken into custody for his own protection or the protection of others or for other reasons as specified by state law.

1. When an officer has reasonable cause for believing that a subject is mentally ill and likely to be of immediate danger to self or others:
 - a. The officer shall notify a supervisor immediately.
 - b. The supervisor shall proceed to the scene and contact a Community Mental Health Officer.
 - c. The officer(s) shall take any reasonable action necessary to protect themselves or others, including handcuffing the subject.
 - d. Officers shall not place the subject under arrest until the Community Mental Health Officer determines that the subject does not meet the criteria to be transported to a mental health facility for evaluation.
2. The responding officer shall complete an Incident/Offense Report thoroughly documenting the events of the call along with any additional reports required by department policy.

**E. Training**

1. Newly hired personnel will receive entry-level training on Dealing with the Mentally Ill (CALEA 41.2.7d).
2. Documented refresher training will be conducted annually for all sworn personnel (CALEA 41.2.7e).

Title: Foot Pursuits	Pages: 5	Distribution: All Members
Cross Reference: CALEA Reference Chapter	Chief of Police Approval: Todd Pinion

DEFINITIONS

Foot Pursuit: An incident where an officer chases (on foot) a person who is attempting to evade detention or arrest.

PROCEDURES**A. Deciding Whether to Pursue**

It is the officer's decision to initiate a stop but it is the suspect or the violator who makes the decision to precipitate a foot pursuit by fleeing or evading. An officer's decision to pursue on foot shall be made with an awareness of the risks that the pursuing officer as well as other officers will be exposed to. No officer or supervisor shall be criticized or disciplined for a decision not to engage in a foot pursuit if, in the officer's opinion, the risk outweighs the need for the pursuit.

1. Where necessary, an officer may pursue persons who he or she reasonably believes have committed an act that would warrant a stop, investigative detention, or arrest.
2. In deciding whether or not to initiate a pursuit, an officer shall consider the following alternatives if available:

- Containment of the area;
 - Canine search;
 - Saturation of the area with police personnel;
 - Apprehension at a later time when offender/suspect is known
3. In deciding whether to initiate or continue a foot pursuit, officers shall also consider risk factors whenever officers are:

- Number of suspect(s) and a description;
- Whether or not the suspect(s) is armed.

C. Foot Pursuit Coordination

1. The primary (initiating) officer shall immediately coordinate, either directly or through Central Dispatch, with other officers to establish a perimeter in the area to contain the suspect(s).
2. If the situation allows, the primary officer shall not try to overtake the fleeing suspect but shall keep them in sight until sufficient manpower is available to take them into custody.
3. Assisting officers shall immediately attempt to contain the pursued suspect. Such officers shall not respond to the primary officer's location unless the suspect has been stopped and the primary officer requests assistance to take the suspect into custody.
4. When two or more officers are in pursuit, they shall:
 - a. Not separate unless they remain in sight of each other and maintain communications, but they shall:
 - b. Allow the lead officer to concentrate on the suspect's actions while the second officer provides backup and maintains communications.

D. Guidelines and Restrictions

1. The pursuing officer shall terminate a pursuit if so instructed by a supervisor.
2. Unless there are exigent circumstances such as an immediate threat to the safety of other officers or civilians, officers shall not engage in or continue a foot pursuit under the following conditions:
 - a. If the officer believes the danger to pursuing officers or the public outweighs the need for immediate apprehension.
 - b. If the officer becomes aware of any unanticipated circumstances that substantially increases the risk to public safety.

- c. While acting alone and without assistance unless exigent circumstances exist. If exigent circumstances warrant, the lone officer shall keep the suspect in sight from a safe distance and coordinate containment.
 - d. Into buildings, structures, confined spaces, or into wooded or otherwise isolated areas without sufficient backup and containment of the area. The primary officer shall stand by, radio their location, and await arrival of other officers to setup a perimeter.  - e. If the officer loses possession of their firearm.
 - f. If the suspect's location is no longer known.
 - g. If the lead officer loses communication with Central Dispatch or backup officers.
 - h. If an officer or third party is injured during the pursuit who requires immediate assistance and there are no other police or medical personnel able to render assistance.
 - i. If the officer loses visual contact with the suspect.
 - j. If the officer is unsure of their own location.

3. If electronic recordings cannot be conducted due to equipment failure, lack of suspect cooperation, or for other reasons deemed pertinent to successful interrogation by the Investigator, the basis for such occurrences shall be documented.

B. Recording Protocol

1. Suspects do not have to be informed they are being recorded.
2. The office of the prosecutor, the investigative case manager, or other authorized

department official may direct that specific interrogations be recorded that do not meet the criteria of interview recordings.

4. When commencing the recording, the Investigator shall ensure the following:
 - a. Voice identification is made of officers, suspect, and any others present,

General Order No. 416.0

Subject: Written Directive System	Effective Date: September 8, 2017	Revised Date: July 14, 2021
Title: Nasal Naloxone (Narcan)	Pages: 5	Distribution: All Members
Cross Reference: CALEA Reference Chapter 41.2.4	Chief of Police Approval Todd Pinion	

POLICY

It is the policy of the Decatur Police Department to establish guidelines and procedures regarding the issuance, maintenance, replacement, training, use and reporting procedures of nasal Naloxone.

DEFINITIONS

Opioids: A class of drugs that may be derived naturally from the poppy plant or from synthetically produced chemicals. The most common opioids are the street drug heroin and prescription pain medications, including morphine, codeine, methadone, oxycodone (Percocet, OxyContin), hydrocodone (Vicodin), hydromorphone, buprenorphine, and fentanyl. Opioids bind to specific receptors in the brain, spinal cord, and gastrointestinal tract that can affect a person's mood, blood pressure, and pain sensations.

Opioid Overdose: A serious medical condition that may lead to decreased or loss of consciousness, respiratory depression, coma, or death resulting from the consumption or use of an opioid, or another substance with which an opioid was combined.

Naloxone: Commonly known by the brand name Narcan, Naloxone is a drug that counteracts the effects of opioid overdose. The drug restores an overdose victim's ability to breathe, frequently allowing him or her to survive a potentially fatal overdose.

HOW NALOXONE WORKS

Opioid drugs bind to receptors in the brain in a way that reduces pain and produces euphoric feelings. These receptors also control respiration. When the levels of opioids in the brain get too high, breathing slows down, eventually causing respiratory failure and lack of oxygen to the brain and central nervous system.

Naloxone works by displacing the opioids in the brain and blocking them from binding to the brain's receptors, so that the body can return to normal breathing. Because the drug reverses the effects of opioid overdose, Naloxone treatments are commonly referred to as reversals.

PROCEDURES

Early intervention and administration of Naloxone are key factors in saving those suffering from an opiate overdose. As first responders, officers often arrive at the scene of overdoses before Emergency Medical Services personnel. The intranasal (nasal) administration of Naloxone (Narcan) has been approved for use by law enforcement officers to treat opioid overdoses and attempt to minimize overdose deaths.

A. ASSESS THE SITUATION

During an opiate overdose, a person may suffer a disruption of normal breathing, which without intervention may lead to death. When Narcan is administered to a person who is not suffering an opiate overdose, it will do no harm.

1. When an officer arrives on the scene of a medical emergency prior to the arrival of Emergency Medical Services personnel, and determines that a person is suffering from an opiate overdose, the officer must contact his/her supervisor immediately.
2. The officer will ensure Emergency Medical Services have been summoned to the scene.
3. If needed, the officer should administer CPR.
4. Indicators that a person is suffering from an overdose may include:
 - a. Unresponsiveness to verbal or physical stimulation, such as pinching their ear lobe or rubbing knuckles up and down the person's sternum.
 - b. Blood-shot eyes;
 - c. Pinpoint pupils, even in a darkened room/area;
 - d. Depressed or slow respiratory rate;
 - e. Difficulty breathing (labored breathing, shallow breaths);
 - f. Skin pale, blue or gray, including the lips, and/or fingernails;

- g. Snoring, gurgling, or choking sounds;
 - h. Decreased pulse rate;
 - i. Low blood pressure;
 - j. Loss of alertness (drowsiness);
 - k. Unresponsiveness;
 - l. Seizures;
 - m. Very limp body;
 - n. Evidence of ingestion, inhalation, injection (needles, spoons, tourniquets, needle tracks, bloody nose, etc.);
 - o. History of opioid use/abuse;
 - p. All these indicators need not be present at the same time.
5. When the decision is made to administer Narcan, the responding officer should take the following steps:
- a. Ensure the safety of the scene;
 - b. Utilize universal precautions. Minimum level of universal precautions is medical gloves;
 - c. Conduct a medical assessment of the person to the best of the officer's ability and surroundings, to include statements made by witnesses regarding drug use;
 - d. The person should be observed and treated by medical personnel as the situation dictates;
 - e. Check responsiveness;
 - f. Administer a dose of the Narcan using the intranasal Naloxone spray kit by delivering one spray into one nostril.

Note: DO NOT “prime” or test the spray device before spraying it into the nostril, as this will waste the medicine.

- g. CPR should continue until no longer necessary.
- h. Additional doses may be repeated within 2-3 minutes after the initial dose; however, under the normal circumstances, EMS should be on scene within that time.
- i. Reversal of an opiate overdose may cause the following:
 - i. Projectile vomiting and/or violent behavior;
 - ii. The person may feel physically ill;
 - iii. The person may experience withdrawal symptoms, which can be unpleasant, but not life-threatening;
 - iv. The person may become agitated and upset due to the withdrawal symptoms coming off the high;
 - v. The person may have a seizure;
 - vi. The person may require an additional dose if the overdose re-occurs, Narcan wears off in 30-90 minutes;
- j. Once EMS arrives on scene, they should be informed that Narcan was administered, the dosage, and the current condition of the patient;
- k. Officers will encourage the person to be transported to the hospital;
- l. If it determined that a criminal investigation is required, the case will be assigned to the Criminal Investigative Unit.

B. Reporting

When Narcan is administered by an officer, the following documentation and procedures must be followed:

- 1. If the person survives the overdose, an incident report titled “Overdose” will be completed. If death occurs, an incident report titled “Death Investigation” will be completed.

2. In the event death occurs, the Criminal Investigation Division will be contacted, and the appropriate investigator(s) shall respond to the scene to investigate the circumstances surrounding the overdose.
3. The officer who administers Narcan will complete the Narcan Use Form, which will be forwarded to the Division Commander via the chain of command.
4. The Division Commander will maintain a copy of the Narcan Use Form and forward a copy of the form to the training unit.

C. ISSUANCE, MAINTENANCE, AND REPLACEMENT

Narcan kits will be issued to a number of officers upon training.

1. Once used, Narcan will be replenished as needed.
2. Supervisors will be equipped with a storage container containing Naloxone kit.
3. Officers will inspect their kits prior to each shift. Missing, damaged, or expired medication will be reported to their Division Commander immediately.
4. Naloxone is fairly tolerant of both cold and heat. Optimally, Naloxone should be stored at room temperature, but this may not be possible in a patrol vehicle. Care should be taken to avoid storage in direct sunlight in a patrol vehicle.

D. TRAINING

1. Initial training for officers issued Narcan kits will be conducted under the direction of the Decatur Fire Department Training Division.
2. Refresher training will be conducted every two (2) years.

**DECATUR POLICE DEPARTMENT**
Decatur, Alabama**General Order No. 417.0**

Subject: Written Directive System	Effective Date: October 4, 2010	Revised Date: February 19, 2020
Title: Domestic Violence/Court Protection	Pages: 7	Distribution: All Members
Cross Reference: CALEA Reference Chapter 41.2.4	Chief of Police Approval: Todd Pinion	

POLICY

It is the policy of this department to provide a proactive, proarrest approach in responding to domestic violence. The primary focus shall be on victim safety followed closely by offender accountability. In all cases the officer shall attempt to determine the *predominant physical aggressor* and arrest him or her. Officers should not arrest a person who acted in self-defense as defined by state statute and the following procedures shall apply.

DEFINITIONS

Definitions regarding domestic violence may be found in the Alabama Criminal Code, sections 13A-6-130 through 13A-6-143.

Proarrest response: The expectation that officers shall arrest a person for committing domestic violence unless there is a clear and compelling reason not to arrest (such as a determination of self-defense or lack of probable cause).

PROCEDURES**A. Initial Response****1. Investigation**

- a. The purpose of any on-scene investigation is to establish probable cause through interviewing all parties involved, recording statements, preserving the crime scene, and collecting evidence.
- b. Upon arrival at a domestic violence call, officers shall:

- i. Secure the scene and separate all parties to ensure the safety of everyone present;
 - ii. Assess the need for medical attention. If the victim has been choked or strangled, the victim should be encouraged to seek medical attention;
 - iii. Interview all parties separately;
 - iv. After each party has been interviewed, determine if an arrest shall be made and/or other actions taken;
 - v. Collect and record evidence including photographs of injuries and/or property damage;
 - vi. Prepare an Incident/Offense Report including a detailed narrative describing the incident and the action(s) taken by officers;
 - vii. Verify if a Protection Order is current either from the victim, through the National Crime Information Center (NCIC), or through the Law Enforcement Tactical System (LETS). If the terms of the Protection Order have been violated by the defendant, an arrest shall be made;
- c. Officers shall not investigate any crime of domestic violence involving a family member of the officer.
 - d. Officers investigating a crime of domestic violence involving a law enforcement officer or elected official shall notify a supervisor immediately (CALEA 41.2.4).

2. Forced Entry

Upon arriving at the scene, officers should make reasonable efforts to make contact with the parties involved and request entry but should not hesitate to force entry should it become necessary to protect the victim(s). Forced entry is permissible any time there is probable cause to believe the safety of a potential victim is in jeopardy.

- a. Probable cause of this type exists when the facts and circumstances within an officer's knowledge or of which he/she has reasonably trustworthy information are sufficient to warrant a person of reasonable caution to believe that the safety of a potential victim is in jeopardy.

- b. In making this decision, officers shall take into account everything they personally observe, all physical evidence, and all things learned from witnesses or other persons supplying information. In evaluating information, officers should take into account the credibility of the person supplying information and whether there is a reasonable basis for believing the content of the information.
- c. When making an assessment of whether forced entry should be made or whether the investigation should be continued when there is no response from the complainant, officers shall ensure that all available information has been obtained from the call taker.
 - i. This will include, but is not limited to, the content of the complainant's request for service, the urgency of the request, and the call taker's assessment as to the seriousness of the request.
 - ii. If this information was not obtained by the call-taker during the initial call for service, officers shall instruct the call-taker to attempt to call the complainant back.
- d. If circumstances permit, officers shall notify a supervisor and receive permission before making forced entry. If this is not possible due to exigent circumstances, officers shall notify a supervisor once the scene is secure (CALEA 41.2.4).
- e. Officers shall fully document their reason for forced entry in the subsequent Incident/Offense Report.

B. Arrest

Arrest is the preferred response to incidents of domestic violence because arrest offers the greatest potential for ending violence.

- 1. When an officer responds to a call of domestic violence, the alleged assailant may be arrested without a warrant if:
 - a. The officer actually observes the commission of a crime; or
 - b. The officer has probable cause to believe that a crime has been committed, even though not in the Officer's presence. The warrantless arrest may be made when probable cause exist to arrest a person for one of the following crimes:
 - i. Any felony. However, officers shall contact their supervisor prior to making a felony arrest (CALEA 41.2.4);

- ii. Domestic Violence in the Third Degree; and
 - iii. Violation of a valid Protection Order.
2. Officers receiving complaints from opposing parties that meet the criteria for domestic violence under the definitions of the domestic violence relationships shall evaluate each complaint separately to determine who the predominant aggressor was. If the officer determines that one person was the predominant physical aggressor, the officer need not arrest the other person alleged to have committed domestic violence. In determining whether a person is the predominant aggressor, the officer shall consider all of the following:
- a. Prior complaints of domestic violence;
 - b. Relative severity of injuries inflicted on each person including whether the injuries are offensive versus defensive in nature;
 - c. The likelihood of future injury to each person;
 - d. Whether one of the persons acted in self-defense.
3. Officers shall not threaten, suggest, or otherwise indicate the possible arrest of all parties to discourage the request for intervention by law enforcement by any party and when making a decision about an arrest, the officer shall not consider the following factors:
- a. Consent or request of the victim;
 - b. Willingness of a victim or witnesses to testify or assist in prosecution;
 - c. Marital status of the parties, except to determine the relationship between the victim and offender as previously defined in this directive;
 - d. Verbal assurances by either party that the violence will cease;
 - e. Concern about reprisals against the victim by the offender;
 - f. Race, ethnic background, sexual preference, social class, or occupation of the victim and/or the offender.
4. It is Department Policy that an arrest shall be made if probable cause exists to make the arrest.

5. When an arrest for misdemeanor domestic violence has been made, the arresting officer will serve as the complainant.
6. When the alleged offender is not present, officers will make a reasonable effort to ascertain his/her whereabouts.
 - a. Officers shall attempt to make contact and continue the investigation.
 - b. If probable cause exists and the offender is not immediately located, the investigating officer shall obtain an arrest warrant by the end of the shift.
 - c. If the arrest is made for a misdemeanor, the Officer will swear to the complaint before the Municipal Court Magistrate.
 - d. If the incident is a felony, the officer or a supervisor shall contact the appropriate investigator prior to making any arrest (CALEA 41.2.5).

C. Non-Arrest Situations

1. When the alleged assailant is present at the scene and no arrest is made, the investigating officer shall complete an Incident/Offense Report thoroughly documenting the reason(s) an arrest was not made.
2. When the alleged assailant is no longer at the scene and cannot be located, the officer(s) shall offer to transport the victim and any minor children to a place of safety such as a "shelter" or another residence. The location to which the victim is transported should be considered confidential and shall be relayed to dispatch by telephone or MDT along with beginning and ending mileage.

D. Mutual Injury/Self-Defense/Dual Arrest

1. When evidence of mutual injury is present, the situation does not necessarily dictate that both parties be arrested (refer to B2, on predominant aggressor). Officers **SHALL** determine whether any injuries were inflicted as a result of self-defense. Arrest of both parties is appropriate when self-defense is **NOT** a factor.
2. No arrest shall be made for acts which an officer has probable cause to believe were committed only in self-defense.
3. The reasonableness of the force used is a key question in evaluating claims of self-defense. In domestic violence cases, victims should only use the amount of force necessary to stop

the offender's attack. Past and present history of violence and the differences between size and strength of the parties involved should also be considered.

E. Reporting Requirements

Alabama State law requires that officers fully document their response to every domestic violence incident on an Incident/Offense Report, whenever a crime has been committed or an arrest has been made. In any instance where probable cause exists and no arrest is made, officers shall complete an Incident/Offense Report documenting the reasons for not making an arrest.

1. An Incident/Offense Report shall be completed on every domestic violence investigation when at least one of the following exists:
 - a. An act of violence is committed, attempted, or threatened either in the presence of the officers or reported to the officers;
 - b. An involved person reports to the investigating officers that they fear for their safety after the officer leaves;
 - c. An arrest is made for any crime of domestic violence; or
 - d. At any time the investigating officer or supervisor believes that a report is appropriate or necessary.
2. A second point of contact and telephone number may be included in the Incident/Offense Report.
3. Photographs of any physical injury shall be made and uploaded into the corresponding case file in the records management system.

F. Crimes Victims Assistance and Rights

1. In all domestic violence situations, the investigating officer(s) shall advise the victim of the availability of a shelter and other services in the community.
2. Officers shall provide all victims of domestic violence with a Crime Victim's Rights pamphlet.
3. Any officer receiving notification from a victim regarding post-sentence release for a misdemeanor domestic violence case shall direct the victim to contact the Family Service

Unit of the Police Department. The Family Services Unit shall contact the victim within fifteen (15) days prior to the end of prisoner's sentence.

G. Supervisory Personnel

All field supervisors will monitor the receipt of domestic violence calls by officers under command.

1. Whenever needed, the supervisor will respond to the scene for the purposes of providing additional security, monitoring the investigation, and providing guidance as necessary.
2. Supervisors shall be contacted in all cases when a felony has been committed (CALEA 41.2.4).
3. Supervisors will respond to and assume investigation of all domestic violence calls where the victim or offender is a law enforcement officer or elected official whether the individual is present at the scene or not.
4. Whenever possible, the supervisor will make any arrest of a law enforcement officer or elected official.
5. If a law enforcement officer is involved in a domestic dispute and no arrest made and no warrant is to be obtained, the supervisor shall complete an Incident/Offense Report thoroughly documenting the reason(s).
6. Upon allegations of domestic violence or the arrest of a Decatur Police Officer, the supervisor shall notify the Chief of Police through the chain of command (CALEA 41.2.4).
7. If a law enforcement officer from another agency is involved in a domestic violence or domestic dispute call, the shift supervisor shall notify that office's agency before the end of the shift and ensure the names of persons notified are included on the Incident/Offense Report.

A. HANDLING JUVENILE OFFENDERS

1. Although adjudication decisions are made by the judicial system and not members of this department, in some non-criminal instances, officers are afforded a certain amount of latitude in dealing with juveniles. Such instances include minor violations of city ordinances and state statutes, which can be effectively and efficiently dealt with by the officer at the time of the initial contact.
2. Officers should use the least restrictive alternatives balanced with preserving public safety and order including, but not limited to the following:
 - a. The release to a parent, legal guardian or other responsible adult with no further action (CALEA 44.2.1a). Factors to be considered should be:
 - i. The cooperation and attitude of all parties (child, parent, guardian victim/complainant) and the possibility of the offense being repeated;
 - ii. The degree of wrongful intent, violence, premeditation, knowledge of violation; and
 - iii. The likelihood that corrective action can or will be taken by the parent or guardian.
 - b. After the officer decides that the juvenile is to be released, the officer will utilize one of the following:
 - i. Give a verbal warning and release the juvenile to a parent or guardian;
 - ii. Require the parent or guardian to pick up the juvenile; or
 - iii. Take the juvenile home and inform the parent or guardian.
 - c. Generally, the following types of offenses may be handled in this manner; however, the list is not complete and officer's good judgment and discretion are important when dealing with:
 - i. Minor traffic violations;
 - ii. Other status offenses (non-criminal behavior).

- d. Release may be made at the incident scene with verbal warning if the officer determines that custody is unnecessary or if the juvenile is involved in an incident of non-criminal behavior.
- e. Officers may turn juveniles over to a parent or guardian at a scene, transport the juvenile to a parent or guardian or to any relative who is capable of taking custody of the child.
- f. Officers must inform the parent or guardian or other relatives of the incident and should not take any further action. This action may be taken when the offense is not serious, but is necessary to have someone take charge of the child.
- g. Officers should use the Juvenile Field Interview Form to inform the Morgan County Juvenile Probation Office when appropriate.
- h. Whenever possible, officers may issue citations to juvenile offenders to appear at the Juvenile Probation Office or Decatur Municipal Court in lieu of taking the juvenile into physical custody.
- i. Juveniles involved in traffic offenses will be handled in accordance with applicable state laws, city ordinances and Decatur Police Department directives (CALEA 44.2.1b, 61.1.3b).
 - i. When issuing a citation to a juvenile less than sixteen (16) years of age, the juvenile shall be referred to the Morgan County Juvenile Probation Office
 - ii. When issuing a citation to a juvenile sixteen (16) years or older, the juvenile shall be referred to the Decatur City Municipal Court.

B. REFERRALS (CALEA 44.2.1c, CALEA 44.2.1d)

- 1. Some minor violations of city ordinances and state laws by juveniles may not require the officer to take the juvenile into custody; however, the officer may decide that the juvenile should be referred to the Juvenile Probation Office instead.
- 2. Officers should complete a juvenile field interview form and forward it to the Juvenile Probation Office.
- 3. Delinquent acts requiring referrals to the juvenile justice system include any delinquent act (CALEA 44.2.1d).

4. Referrals to other agencies or services for potential diversion alternatives should be handled by the Morgan County Juvenile Probation Office (CALEA 44.2.1c).

C. TAKING JUVENILES INTO CUSTODY

D. INTERROGATION/INTERVIEW (CALEA 44.2.3a, CALEA 44.2.3b)

Interviews of juveniles should be done with consideration of the juvenile's age, mental age, other factors or influences experienced by the juvenile. The following guidelines apply:

1. Officers will afford juveniles the same respect and rights as are afforded adults, whether the juvenile is a victim or a witness.
2. When appropriate and requested by the juvenile, parents or guardians will be contacted prior to the interview (CALEA 44.2.2e).

General Order No. 424.0

Subject: Written Directive System	Effective Date: November 30, 2018	Revised Date: November 30, 2018
Title: Critical Incident Stress Debriefing	Pages: 5	Distribution: All Members
Cross Reference: CALEA Reference Chapter 22	Chief of Police Approval Todd Pinion	

POLICY

It is the policy of the Decatur Police Department to provide assistance and support to all personnel with exposures to mentally painful and highly stressful situations.

PURPOSE

To establish a system to provide stress-related services to department personnel.

DEFINITIONS

Critical Incident: Any situation beyond the realm of a person's usual experiences that overwhelms their sense of vulnerability and/or sense of control. Critical incidents may cause law enforcement officers and support personnel to experience unusual emotional reactions that have the potential to interfere with their ability to function either at a scene or later.

Post-Traumatic Stress Disorder: An anxiety disorder that can result from exposure to short-term severe stress, or the long-term buildup of repetitive and prolonged milder stress.

Cumulative Stress: The result of a collection of stressful events.

PROCEDURES

A. CRITICAL INCIDENT STRESS DEBRIEFING (C.I.S.D.) OVERVIEW

The primary purpose of the C.I.S.D. is to evaluate the impact of a specific traumatic event or series of events upon personnel. Such debriefings are highly recommended for personnel who are directly or indirectly involved in critical incidents. They provide the opportunity for

education and give the employee the opportunity to process the experience of the critical incident/traumatic incident.

1. Critical incidents are sudden and unexpected. They can have a strong emotional effect even on well-trained and experienced people.
2. Critical incidents may affect one or more individuals. The individuals affected can be those directly involved in the incident, but it may also include those indirectly involved such as family members, friends, etc.
3. Stress symptoms may be delayed when reactions do not surface for days, weeks or months after a critical incident.
4. Cumulative stress may result in conditions such as divorce, alcoholism, or the premature end to a career. Managing daily stress and utilizing the services available after a critical incident should assist in preventing cumulative stress.
5. Critical incident stress and post-traumatic stress may result from the same incident but the duration and impact on the individual are different. Post-traumatic stress disorder disrupts the normal functions of the individual's life, such as sleep, activities, relationships and health.
6. Only personnel who have received appropriate training will conduct debriefings (CALEA 22.1.7F).
7. The Debriefing is not an operational critique nor does it evaluate personnel. Additionally, it is not part of any investigation. The primary focus of the debriefing is to allow those involved to talk about the facts, their thoughts and reactions to a stressful event.

B. PROGRAM AVAILABLE TO PERSONNEL (CALEA 22.1.7a, CALEA 22.1.7c)

1. The City of Decatur provides both a voluntary and a mandatory Employee Assistance Program (E.A.P.) for all full time employees. Sessions are completely confidential and the City will receive information on the whether or not the employee attended.
2. Additionally, the Decatur Police Department's Chaplain Program provides a source of religious strength to department members and their families upon request
3. Counseling activities are typically conducted within 24-72 hours after the incident, or as soon as possible.

4. Only personnel who have received appropriate training will conduct EAP counseling (CALEA 22.1.7f).
5. EAP may recommend additional sessions, follow ups or extended time from work should it appear necessary (CALEA 22.1.7d).

Title: Immigration Procedures	Pages: 2	Distribution: All Members
Cross Reference: CALEA Reference Chapters N/A	Chief of Police Approval Todd Pinion	

POLICY

It is the policy of the Decatur Police Department to comply with local, state or federal laws while protecting the rights of all citizens living or visiting our community.

DEFINITIONS

Section 287(g) Agreement: Partnership between ICE and a state or local law enforcement agency that delegates authority to state and local enforcement officers to perform immigration enforcement functions.

PROCEDURES

The enforcement of immigration law is primarily the responsibility of the federal government, through the United States Immigration and Custom Enforcement Agency ("ICE").

1. Section 287(g) agreements under 8 U.S.C. 1357 are voluntary agreements which require local consent. DPD will refrain from entering into these agreements, as they are not consistent with furthering DPD's community policing philosophy.
2. Officers will not undertake any immigration-related deportation or detainer investigation unless said operation involves an individual who has committed crime(s) directly related to public safety.
3. In the event that ICE requests non-emergency assistance from DPD to further the enforcement of civil immigration laws DPD will make every effort to assist as it would with any federal or state agency seeking such assistance provided such request is approved by the

Chief of Police and such assistance can be provided without undue hindrance of the provision of police services to the City at large.

4. Individuals may not be arrested solely for a suspected violation of immigration laws and will only be detained for immigration law violations if they are already in custody for non-immigration charge and a detainer is requested by ICE. Such detainer may be requested by DPD whenever the suspect is in custody at the request of ICE but the detainer may only be valid for a period of up to 24 hours beyond the time the other charges were holding the suspect in custody.
5. Additionally, DPD may assist ICE agents when they anticipate or encounter violent resistance and/or with the approval of a Division Commander or the Chief of Police.
6. Any notification or contact with ICE for the purpose of detaining or apprehending individuals who are not being held on other criminal charges should only be made with the approval of a Division Commander or the Chief of Police.
7. An individual's right to file a police report or otherwise receive services from DPD is not contingent upon their citizenship or immigration status.
8. Officers shall strive to treat all individuals equally and fairly regardless of their immigration status.
9. Officers shall not inquire into the immigration status of persons encountered during police operations unless reasonable suspicion or probable cause exists to believe the person committed a crime and the person is believed to be undocumented. Officers shall not ask any individual to produce a passport, Alien Registration Card (Green Card) or any other immigration documentation. This does not prohibit an officer from considering these documents as appropriate forms of identification when voluntarily provided by the individual to establish someone's identity. Referrals to ICE concerning detainers or apprehension shall be made in accordance to number 6.
10. Although officers will not request identification to determine a person's immigration status, they may request identification from individuals as they enforce traffic violations and/or conduct criminal investigations. Referrals to ICE concerning detainers or apprehension shall be made in accordance to number 6.

DEFINITIONS

Epidemic - A sudden increase in the number of cases of a disease above what is normally expected.

2. Wash hands often, use hand sanitizer and practice sanitary measures as recommended by CDC or State Health Department. <https://www.cdc.gov/handwashing/show-me-the-science-hand-sanitizer.html>
3. If you have touched anything such as doorknobs, desktops, paperwork, money, etc. do not touch your face until you sanitize your hands. <https://www.webmd.com/cold-and-flu/ss/slideshow-germiest-things>
4. Routinely clean commonly touched surfaces and sanitize all areas of your workspace(s) and equipment. <https://www.cdc.gov/coronavirus/2019-ncov/community/organizations/cleaning-disinfection.html>

**B. ADDITIONAL MEASURES**

1. All patrol shifts are placed on modified roll call. Officers will not meet in the squad room prior to shift. All pass-on information conducted in regular roll call will be done outside the Police Depot or via the Mobile Data Terminal (MDT) to each patrol vehicle.
2. If an alternative Response (AR) to calls for service is established, two officers will be assigned to the front desk to complete Incident/ Offense Reports via telephone.
3. Officers will be evaluating non-emergency and non-violent calls for service where the perpetrator is not present to determine whether a report can be taken via telephone instead of in-person. **Calls fitting the criteria for alternative call for service response will include but are not limited to:**
 - a. Non-injury minor vehicle crashes on private property that are not blocking a roadway, where there is no dispute between drivers, no driver impairment, and no vehicles that have to be towed;

 6. Supervisors should closely monitor the radio traffic to determine if an officer response is necessary or if it is something that can be handled by the officers at the front desk. If it can be handled by the front desk officer, the supervisor will advise dispatch over the radio to have that person contact the front desk. This should be done over the radio so dispatch is not swamped with additional phone calls and the officers clearly hear the call being cancelled or re-routed.
 7. School Resource Officers will be reassigned to other duties as required or needed at the discretion of the Chief of Police.
 8. Detectives will continue to operate at the discretion of the Chief of Police.
 9. Sworn personnel are directed to use discretion on criminal offenses that do not absolutely require a physical arrest. The exception is domestic violence, violent felonies, or cases that require an arrest. Personnel should wear your PPE at these times.
 10. Officers should maintain and wear their issued masks in accordance to policy # 509.0. If available, spit hoods should also be used when necessary. <https://www.fda.gov/medical-devices/personal-protective-equipment-infection-control/n95-respirators-and-surgical-masks-face-masks>

General Order No. 432.0

Subject: Written Directive System	Effective Date: December 12, 2014	Revised Date: May 12, 2022
Title: Use of Tire Deflation Devices	Pages: 4	Distribution: All Members
Cross Reference: CALEA Reference Chapters 41	Chief of Police Approval Todd Pinion	

POLICY

The Decatur Police Department has adopted the use of Tire Deflation Devices to aid in the prevention or termination of vehicle pursuits. The current adopted system for this use is the Federal Signal Stinger Spike System and no other systems are authorized.

Tire Deflation Devices will be used in accordance with the manufacturer's instructions, departmental training, and supervisor direction. Only members of the Department that have received training on the Spike System are authorized to deploy it.

PURPOSE

To establish a policy providing guidance and direction for the use of Tire Deflation Devices.

DEFINITIONS

Tire Deflation Device: A manually deployed device containing a multitude of hollow steel spikes which, when struck, causes a gradual controlled deflation of a vehicle tire. The use of a tire deflation device is not considered a roadblock.

Roadblock: With the exception of tires deflation devices, any method, restriction or obstruction utilized or intended for the purpose of preventing free passage of a motor vehicle on a highway in order to effect an apprehension.

Note: The use of roadblocks is prohibited unless exigent circumstances exist as allowed by the Use of Deadly Force.

PROCEDURES

A. USAGE (CALEA 41.2.3a)

Tire deflation devices may be:

1. Used to assist in safely ending a vehicle pursuit;
2. Strategically placed under the tire of a suspect's vehicle to possibly prevent a pursuit from taking place.

B. METHODS OF DEPLOYMENT (CALEA 41.2.3b)

1. Pull Deployment

To be used when longer set-up time is available and traffic is minimal. In this deployment, the officer will have time to set the unit up across the roadway and walk back across seeking protective concealment.

2. Curbside Deployment

To be used for quick deployment situations. In this deployment, the officer will deploy the unit from the curbside that they are on, tossing the unit across the roadway.

C. DEPLOYMENT OF THE SPIKE SYSTEM

1. Can completely block the anticipated lane of travel of the pursued vehicle;
2. Not to be deployed until non-involved vehicle traffic has been cleared.
3. Direct communication must be established between the lead pursuit vehicle and the deploying officer prior to deployment.
4. DO NOT deploy unless adequate safety measures can be established for all involved.
5. Deploying officer must be trained in use of system before deployment.
6. Deploying officer is responsible for recovery of system.
7. DO NOT deploy system on a two-wheeled vehicle, such as a motorcycle, unless deadly force is authorized.
8. The totality of the circumstances should be considered before any deployment of the spikes system.

9. DO NOT use a patrol vehicle as cover or concealment. Seek cover such as bridge abutments, overpasses, guard rails, or large trees.

D. CONSIDERATION OF AREA OF DEPLOYMENT

1. Consider time of day due to traffic congestion and high traffic areas should be avoided.
2. Areas that have high pedestrian traffic should be avoided.
3. Areas that are construction zones should be avoided.
4. Areas that are locations for school dismissals should be avoided during those times that school is going into or out of session.

E. PURSUING OFFICER(S) RESPONSIBILITIES

1. Relay important information to the deploying officer such as: vehicle speed, lane position, direction of travel, vehicle description, number of passengers, whether or not alcohol or drug use is known, and whether or not weapons are involved.
2. Decrease speed and increase pursuing distance to allow the deploying officer time to retrieve the Spike System.
3. If the deploying officer was unable to retrieve the system, pursuing officers should run over the system and not attempt to swerve at high speeds or come to an abrupt stop.

F. SUPERVISOR'S RESPONSIBILITIES (CALEA 41.2.3d)

Supervisors will be responsible for the following:

1. Coordinating the setup and the location of a tire deflation device. Tire deflation devices may only be used in an area that poses minimal risk for deployment.
2. Monitoring the radio traffic.
3. Determining the success of the deployment;
4. Making a determination if additional deployments are needed.

G. REPORTING (CALEA 41.2.3e)

1. All uses of the Stinger Spike System shall be reported in the appropriate manner using an Incident/Offense Report or Arrest Report.

2. An administrative review will be conducted on each deployment.

H. CARE AND MAINTENANCE

The Stinger Spike System was designed to withstand multiple high-speed impacts but it does need to be inspected after every use and maintained.

1. Check the system after each deployment for broken rocker arms.
2. Check the system after each deployment to make sure the nylon rope is not frayed or broken.
3. Do not use any petroleum-based lubricant on the system or case as it will cause the plastic to deteriorate.
4. When folding the unit, shake it to dislodge any grass, rocks, or other debris that would prevent it from folding properly.
5. Check the system bi-annually to ensure it is in proper working order.

I. TRAINING (CALEA 41.2.3c)

Tire Deflation Devices will be used in accordance with the manufacturer's instructions, departmental training, and supervisor direction.

1. Initial training will be conducted to all newly hired personnel.
2. Retraining will occur once every four years.
3. Training will be documented by the training staff.
4. Only members of the Department that have received training on the Spike System are authorized to deploy it.

Decatur, Alabama**General Order No. 433.0**

Subject: Written Directive System	Effective Date: October 22, 2014	Revised Date: August 7, 2019
Title: Recording Police Activity	Pages: 3	Distribution: All Members
Cross Reference: CALEA Reference Chapter N/A	Chief of Police Approval: Todd Pinion	

POLICY

Members of the public, including media representatives, have an unambiguous First Amendment right to record officers in public places, as long as their actions do not interfere with the officer's duties or the safety of officers or others. Officers should assume that they are being recorded at all times when on duty in a public space.

PURPOSE

This policy provides officers with guidance for dealing with situations in which they are being recorded, to include both audio and video, or both, by members of the public or the media.

DEFINITIONS

Recording: Capturing of images, audio, or both, by means of a video camera, cell phone, audio recorder, or other device.

Media: The storage source for visual or audio recordings, whether by film, analog, or digital means.

PROCEDURES**A. General Procedures**

Persons who are lawfully in public spaces or locations where they have a legal right to be present have a First Amendment right to record things in plain sight or hearing to include police activity. Examples, but not limited to, are homes, places of business, or the common areas of public and private facilities and buildings. Officers may not threaten, intimidate, or otherwise discourage or interfere with the recording of police activities. However, the right to record is not absolute and is subject to certain legitimate and reasonable legal restrictions, listed below.

1. A reasonable distance must be maintained from the officer(s) who is engaged in police

enforcement or police related duties.

2. Subjects engaged in recording activities may not obstruct police actions. Subjects may not interfere with the officer(s) through direct physical intervention, tampering with a witness, or by persistently interrupting the officers. As much as verbal criticism, verbal insults, or name calling may be annoying, they alone do not justify an officer to take corrective action to stop the recording. Doing so is an infringement upon an individual's right to protected speech.
3. The subject recording must not interfere unreasonably with the movement of emergency vehicles and equipment or personnel. The subject is also not allowed to obstruct either vehicular traffic or pedestrian traffic.
4. The safety of officers, victims, witnesses, and third parties cannot be jeopardized by the subject recording.

B. Arrest

1. Subjects who violate the mentioned restrictions should be informed that they are engaged in prohibited activity and given instructions or directions on how to become compliant prior to any arrest.
2. Arrest of a person who is recording officers in public shall be related to an objective, articulable violation of the law unrelated to the act of recording. Recording in of itself is not grounds for detention or arrest.
3. Arrest of an individual does not provide an exception to the warrant requirement justifying search of the individual's recording equipment or media. While equipment may be seized incident to an arrest, downloading, viewing, or otherwise accessing files may require a search warrant. Files and media shall not be erased under any circumstances.
4. Subjects who violate the mentioned restrictions should be informed that they are engaged in prohibited activity and given instructions or directions on how to become compliant prior to any arrest.
5. Absent arrest of the subject recording, recording equipment may not be confiscated. Additionally, officers may not order an individual to show recordings that have been made of enforcement actions of other police operations.
6. If there is probable cause to believe that evidence of a serious crime has been recorded, an officer should:
 - a. Advise and receive instructions from a supervisor;
 - b. Ask the person in possession of the recording if they will consent to voluntarily and

- temporarily relinquish the recording device or media so that it may be viewed and/or copied as evidence;
- c. In exigent circumstances, in which it is reasonable to believe that the recording will be destroyed, lost, tampered with or otherwise rendered useless as evidence before a warrant can be obtained, the recording device or media may be confiscated under a temporary restraint. A warrant must be obtained in order to examine and copy the recording and the chain of custody must be clearly documented per department policy.
- 7. In exigent situations where it is objectively reasonable to believe that immediate viewing of recordings is necessary to prevent death or serious bodily harm of another before a warrant can be authorized, the recording device or media may be confiscated and viewed.
 - 8. Whenever a recording device or media is seized without a warrant or obtained consent, the seized item shall be held in police custody no longer than reasonably necessary to obtain a warrant without undue delay. The owner of the device shall be given instructions on how to retrieve their device and it must be done as soon as possible. In all cases of device or media seizure, a property receipt shall be provided to the owner.

C. Supervisor Responsibilities

A supervisor should be summoned to any incident in which an individual recording police activity is going to be, or will most likely be, arrested or when recording equipment may be seized without a warrant of lawful consent.

ADMINISTRATIVE PROCEDURES

1. Uniform Traffic Citation books will be issued consecutively by book number, by department personnel.
2. The receiving officer will check each citation book to ensure that all citations are present.
3. The officer will then sign for the book, listing employee ID number.

Note: Depending on equipment availability, officers must use E-Cite, and only use the Uniform Traffic Citation Book when E-Cite is inoperable.

B. LOSS TO BE REPORTED

Each officer possessing a Uniform Traffic Citation book will be accountable for its condition. The loss of a Uniform Traffic Citation book or any part of a book will be reported in a memorandum to the Chief of Police via the chain of command. This report will include all missing citation numbers and an explanation of the circumstances surrounding the loss.

C. VOIDING CITATIONS

In the event it becomes necessary to void a Uniform Traffic Citation, the officer will clearly mark all copies "Void." The officer will then attach all copies of the voided citation to a memorandum directed to the Chief of Police via the chain of command. This report will include the reason for voiding the citation and the number of the citations issued in its place.

Note: E-Citations should be voided within the designated program using the proper procedure.

D. INSTRUCTIONS (CALEA 61.1.2b)

A Uniform Traffic Ticket and Complaint may not be issued for a felony charge. Only one violation may be cited on each Uniform Traffic Citation. The issuing officer will complete the Uniform Traffic Citation in accordance with the guidelines established by the State of Alabama. These guidelines are available in the Municipal Court. They encompass statued law Titles 12-12-50 through 12-12-56, Title 12-14-8, the Rules of Judicial Administration: Rule 19 and the Uniform Traffic Ticket and Complaint Manual of the Administration of Courts.

1. Officers will review the citation for accuracy and completeness prior to asking for the violator's signature. Upon issuance of a Uniform Traffic Citation, the officer will provide the violator with an appropriate court date in accordance with the Decatur Police Department written directive concerning traffic law enforcement Municipal Court arraignments.
2. Officers should refer the violator to the City of Decatur Magistrate's Office for any information regarding optional or mandatory nature of court appearance (CALEA 61.1.4b).
3. Violators will be referred to the City of Decatur Magistrate's Office to find out if they are allowed to enter a plea and/or pay the fine by mail or in person before the court date (CALEA 61.1.4c).

4. Officers will not attempt to answer any questions concerning the amount of a fine or related court cost. Instead, officers will provide any reasonable information requested by the violator prior to their release (CALEA 61.1.4d).
5. Officers will present the completed Uniform Traffic Citation to a Municipal Court magistrate, at which time they will swear to or affirm the validity of the citation before the magistrate. This procedure will be conducted as prescribed by the municipal court magistrate.

E. SECURITY OF CITATION (CALEA 82.3.4c)

1. Officers will be responsible for the security of citations until they are turned into the Decatur Municipal Court or the Morgan County Juvenile Probation Office.
2. **Handwritten citations:**
 - a. Officers shall ensure the citations are stored at secured locations within their assigned vehicles at all times.
 - b. Once a citation has been issued, a copy of such citation will be filed with the Decatur Municipal Court or the Morgan County Juvenile Probation Office.
 - c. The other copy will be filed with the Decatur Police Department's Record Unit.
3. **E-Citations**
 - a. Officers may download up to two warning citation and/or citation books within E-Cite. Each book contains a block of 50 citations that are arranged in sequential numbers.
 - b. Once a citation has been printed, it is to be turned into the Decatur Municipal Court or the Morgan County Juvenile Probation Office to be filed without delay.

F. ACCOUNTABILITY FOR CITATIONS (CALEA 82.3.4b)

1. To ensure accountability for citations the Operations Division Commander will ensure that checks are made of issued citations at least annually. Citations will be checked by random selection. This check will search for citation numbers missing from the database.
2. Once a citation has been determined to be missing, the Operations Division Commander or a designee will determine if that citation was turned into the Court or if it may have been lost or otherwise disposed of in an unauthorized manner.

3. If it appears that the citation was improperly disposed of, the matter will then be referred to the officer's immediate supervisor for investigation and recommendation.
4. No member of the Decatur Police Department will participate in the improper disposal or adjudication of any traffic citation.

ENFORCEMENT PROCEDURES

A. CITATIONS NOT RESULTING IN CUSTODIAL ARREST (CALEA 61.1.4a)

When violators are permitted to be released on their own bond, the court date for the Uniform Traffic Citation(s) must be set no less than thirty (30) days after the date of issuance of the citation. The court date on all non-custodial arrests will be set according to the Decatur City Magistrate and are subject to change.

B. TRAFFIC ARREST WITH SIGNATURE BOND (CALEA 61.1.2b)

Current Alabama law requires that almost all persons arrested for traffic violations be released on their signature bond, except when using E-Cite. Few cases exist where this is not true. Examples include but are not limited to the following:

1. Officers may find that in some cases it is not reasonable to effect the arrest of an offender at the time of the violation. Officers may want to obtain a warrant for an arrest of the violator at a more advantageous time. In these cases, the officers must have the correct identification and vehicle information needed for a citation.
2. The officer will then complete a citation and deliver it to the Magistrate's office to obtain an arrest warrant for the offender.
3. If a warrant is issued, it is to be served once it is in hand.

A. PHYSICAL ARREST (CALEA 1.2.5, CALEA 61.1.2a)

1. Officers may arrest persons in violation of those traffic laws pertaining to driving under the influence of intoxicants.
2. Officers will arrest persons in violation of traffic offenses committed during the commission of crimes.
3. Officers will contact their supervisor, who will determine if a citation will be issued or a warrant at a later time.

4. Some arrests do not allow for the signature bond of the traffic violator. These arrestees will be required to have a bond posted with the Municipal Court.
5. If applicable, the officer must allow the violator the opportunity to:
 - a. Sign the Uniform Traffic Citation, if applicable; or
 - b. Post their driver's license as bond. This opinion is entirely the violator's decision and is not mandatory.
 - c. It is recommended that if the violator refuses to sign the citation, the Officer will write "Refused to Sign" on the signature section. Physical arrest is not the preferred course of action for a refusal to sign, but in the event of an arrest, a supervisor must be contacted.
6. A signature is not required when using E-cite; however, in the event that E-cite is inoperable or unavailable the Uniform Traffic Citation Books must be used.

B. ARREST REPORTS

Upon the arrest of a traffic violator, a Uniform Traffic Citation will be completed for each traffic offense, along with an Arrest Report.

1. Violators will be given their copy of the traffic citation(s), unless circumstances prohibit doing so.
2. The arrest report will be given to the Municipal Court magistrate, along with the original Uniform Traffic Citation(s).

C. VEHICLE SECURITY UPON TRAFFIC ARREST

In the event a traffic violator is placed under physical arrest, the officer will determine if the violator's vehicle poses an immediate traffic hazard.

1. If the vehicle poses an immediate traffic hazard and cannot be removed from the roadway, the vehicle will be impounded.
2. If the vehicle does not pose an immediate traffic hazard, the officer will inform the arrestees of the options of impounding the vehicle at the violator's expenses, releasing the vehicle to a person of the violator's own choosing or leaving the vehicle unattended. By refusing the impoundment or releasing the vehicle to another, the violator accepts all responsibility

for the vehicle and its contents. This includes any theft, damage or loss that occurs as a result.

3. All impoundments will be made in accordance with the Decatur Police Department written directive concerning vehicle impoundment procedures.
4. Officers should avoid driving the violator's vehicle, or any citizen's vehicle, unless to ensure the vehicle is operable in a DUI case.

D. ENFORCEMENT GUIDELINES

The enforcement policies of the Decatur Police Department cannot and should not interfere with an individual officer's discretion in the issuance of a Uniform Traffic Citation. The officer's discretion should be based on training and professional judgment. The following are general enforcement policies that should guide officers in taking enforcement action against traffic violators.

E. MOVING VIOLATIONS / UNIFORM TRAFFIC CITATION (CALEA 61.1.5c)

1. A Uniform Traffic Citation should be issued to violators who jeopardize the safety and welfare of vehicle and pedestrian traffic, citing the specific law or municipal ordinance violated.
2. This includes hazardous and non-hazardous violations, operating unsafe or improperly equipped vehicles and license violations.

F. NON MOVING VIOLATIONS / PARKING CITATIONS (CALEA 61.1.5d)

1. A Parking Summons and Complaints will be utilized to cite violations of illegal, improper or hazardous parking, citing the municipal ordinance being violated. A Uniform Traffic Citation will not be used to enforce a parking violation.
 - a. Parking Summons and Complaints issued for parking violations occurring on private property will be in accordance with the Decatur Police Department written directive concerning the enforcement of Parking Ordinances.
 - b. Handicap parking enforcement will be in accordance with Decatur Police Department written directive concerning handicap parking.
2. A Uniform Traffic Citation should be issued to violators who operate their vehicles with equipment violations, detailing the specific law or municipal ordinance.

**G. VERBAL WARNING (CALEA 61.1.2c)**

A verbal warning may be appropriate when the violator commits an act due to lack of knowledge of a law or ordinance, or when equipment failure has occurred and the driver is unaware of the failure.

H. DRIVING UNDER THE INFLUENCE (CALEA 61.1.5a)

The policy of the Decatur Police Department is to arrest persons found to be driving under the influence of any substance which impairs their ability to safely operate a motor vehicle upon public or private property. Procedures for DUI arrest are established in other written directives.

I. HAZARDOUS VIOLATIONS

In most cases violators may be issued a citation only when the violation is observed by the officer.

1. Officers should concentrate their enforcement efforts in areas with a previous history of high accident occurrence.
2. Hazardous violations consist of any violation of a law or ordinance which presents an immediate danger to vehicular or pedestrian traffic. This includes unsafe behavior or an unsafe condition relating to the driver or vehicle.
3. Hazardous violations include but are not limited to DUI, speeding, running stop sign or signal, failure to yield the right of way, reckless driving and following too closely.
4. Officers should consider hazardous violations an important part of their enforcement effort.

J. NON-HAZARDOUS VIOLATIONS

Violators may be issued a citation only when the violation is observed by an officer. Non-hazardous violations consist of any violation of an enacted law or ordinance which is not a hazardous violation as defined above. These include but are not limited to revenue, licensing and equipment violation not creating an unreasonable risk to the public.

K. MULTIPLE VIOLATIONS (CALEA 61.1.5f)

A Uniform Traffic Citation may be issued for each violation that is not a lesser included offense of the more serious violation. For example, instead of issuing several citations for multiple moving violations, officers may issue a citation for reckless driving when warranted.

**L. PUBLIC CARRIER AND COMMERCIAL VEHICLE VIOLATIONS (CALEA 61.1.5e)**

Only officers who have been certified by ALEA and approved by the Chief of Police as Motor Carrier Safety Officer will inspect commercial vehicles to check for violations of the Federal Motor Carrier Safety Regulations. Stops by non-Motor Carrier officers based on probable cause that a violation has occurred are always permitted and encouraged. Operators of commercial motor vehicles can be issued a Uniform Traffic Citation or warning as prescribed in this directive by any sworn officer.

M. POST ACCIDENT ENFORCEMENT (CALEA 61.1.5h)

1. Alabama law allows for unwitnessed traffic arrests by officers. Enforcement of traffic laws may still be accomplished by officers explaining to accident victims the provisions for obtaining an arrest warrant for a traffic offender.
2. Officers may issue citations to the driver of a motor vehicle involved in an accident when, based on personal investigation, the officers have prima facie evidence demonstrating grounds to believe that the driver of such vehicle has committed any offense under chapters 5, 5A, 6, 7, or 7A of Title 32 of the Alabama Code.

N. REVOKED OR SUSPENDED DRIVING PRIVILEGES (CALEA 61.1.5b)

1. Motorists operating a motor vehicle after their driving privileges have been revoked or suspended will be issued a Uniform Traffic Citation. Officers will not give the violators permission or allow them to operate a motor vehicle.
2. Officers may impound the violator's vehicle in accordance to Alabama Title 32, Motor Vehicle and Traffic or City of Decatur Ordinance 22-43, unless specifically required by State law.

O. OFF-ROAD RECREATIONAL VEHICLES AND BICYCLE ENFORCEMENT (CALEA 61.1.5i)

Off-road recreational vehicles and bicycles will be expected to obey all laws and ordinances of the State of Alabama and City of Decatur. Enforcement of these violations will be in accordance with procedures set forth in this written directive. The age of the offender may influence the degree of enforcement action taken. A citation cannot be issued to a juvenile offender under the age of 16 years. Notifying the parents or legal guardian of a juvenile violator should be considered as an alternative to issuing a Uniform Traffic Citation.

**P. PEDESTRIAN ENFORCEMENT (CALEA 61.1.5i)**

In areas where pedestrian accidents occur, officers should concentrate their efforts to enforce pedestrian traffic laws. Enforcement will consist of all measures outlined in this directive for vehicular violator and as allowed by law for application to pedestrian violators. Such areas will include, but are not limited to school crossings, malls, shopping centers, etc.

Q. NEWLY ENACTED LAWS (CALEA 61.1.5g)

Officers should use their judgment when deciding to issue a citation to a motorist who has violated a newly enacted traffic law. Officers should use their discretion as an opportunity to educate the motorist.

SPECIAL CONSIDERATIONS**A. NONRESIDENTS**

Non-residents will be issued traffic citations and/or warnings in the same manner as a resident.

General Order No. 602.0

Subject: Written Directive System	Effective Date: June 1, 1997	Revised Date: July 18, 2018
Title: Traffic Stops	Pages: 6	Distribution: All Members
Cross Reference: CALEA Reference Chapter 61.1.7	Chief of Police Approval Todd Pinion	

POLICY

Traffic stops will be conducted professionally and courteously and in a manner designated to provide for the safety of officers, violators and other motorists.

SCOPE

This directive is applicable to all sworn personnel.

RESPONSIBILITY

All sworn personnel will comply with this directive.

PURPOSE

To establish guidelines for stopping and approaching traffic violators.

PROCEDURES

No two traffic stops are exactly alike and no two violators will react in the same manner. Conditions may dictate altering the recommended procedures. The procedures are to be followed when possible and presented from the perspective that ideal conditions exist for the traffic stop.

A. STOPPING VEHICLES

Upon identifying a traffic law violator, officers should attempt to stop the violator in an area or location safe for the officers, the violator and other motorists. If the violator has stopped in an unsafe manner or location, he or she should be instructed to move to the nearest safe location. The public address system (PA) may be used to direct the violator from a safe distance, so long as it is tactically necessary and is not done to embarrass or harass the violator. Instructions should be given slowly and clearly to avoid confusion. Officers should

avoid driving the violator's vehicle, or any citizen's vehicle, unless to ensure the vehicle is operable in a DUI case.

B. HIGH RISK/FELONY STOPS (CALEA 61.1.7b)

Officers must remain flexible to prepare a response for whatever action the suspect may take. High risk or unknown risk stops will be made in accordance with the following guidelines:

1. If possible, follow the vehicle until assistance arrives;
2. Provide the communications center with the vehicle description and suspect information;
3. Formulate a plan for the location and for backup;
4. If possible, try and make the stop in a location with tactical advantages, including minimum traffic, good visibility and limited escape routes;
5. A minimum of four officers is recommended to conduct a high risk stop;
6. The greater the perceived threat, the greater the distance to be maintained from the suspect vehicle;

C. ADDITIONAL PROCEDURES

1. Generally, the first two patrol vehicles should be positioned side by side, approximately 45 feet behind the suspect's vehicle; other patrol vehicles should be positioned carefully to avoid placing any other officer in a cross-fire;
2. The officer originating the stop is in charge of the stop unless relieved by a higher ranking officer and should be the only officer giving orders to the suspects;
3. Back-up officers should direct their comments, recommendations, warnings, etc. to the officer in charge;
4. Spotlight and high beam lights should be used to illuminate the suspect vehicle and protect officers;
5. Once officers are in position, suspects should be controlled through the use of commands by the primary officer or officer in charge;
6. The driver will be ordered to shut off the vehicle ignition, turn on interior lights if needed, roll the driver's window down and place the keys on top of the vehicle;
7. The officer giving commands should order the subject(s) to slowly exit the car one at a time (all exiting from the left side doors) keeping hands up and visible at all times and

making a complete turn to enable a cursory weapons check;

8. If a weapon is seen, the officer will advise the suspect not to reach for or touch the weapon as any movement towards the weapon may be considered an act of aggression;
9. Each suspect should be ordered to walk backward, one at a time, toward the patrol units and assume a prone position or kneeling position;
10. One officer will carefully approach the suspect and apply handcuffs;
11. When all visible occupants have been removed, the primary officer or officer in charge should carefully inspect the suspect's vehicle for hidden occupants;
12. The trunk must be carefully opened and inspected with cover from other officers;
13. The communications center must be constantly updated whenever it is safety feasible;

D. UNKNOWN RISK STOPS PROCEDURES (CALEA 61.1.7a)

1. VEHICLE POSITION

- a. Whenever it is safely feasible, all pertinent information will be transmitted to the communications center prior to the actual stop.
- b. Once the violator has been stopped in a safe location, the officer's vehicle should be positioned 10-15 feet to the rear of and offset approximately 3 to 5 feet to the left of the violator's vehicle (or toward approaching traffic). Wheels should be turned to the left.

2. APPROACH

Officers should approach the violator's vehicle with caution, watching for any suspicious or sudden movement in the vehicle. Officers may use the spotlight or other lighting to illuminate the interior of the violator's vehicle. If approaching the violator's vehicle, officers may:

- a. Check the trunk lid to determine if it is secure as they approach the vehicle.
- b. Carefully survey the interior of the violator's vehicle during the approach.
- c. Walk cautiously to a point even with the trailing edge of the door as they approach the vehicle.
- d. Position slightly behind the driver's door, with the weapon away from the violator. This position enables the officers to communicate with the driver and keep all

occupants in view.

- e. If a second officer is present, he or she should approach the vehicle along its right side, using the same caution.
- f. Officers may utilize either a driver or passenger side approach, or may call the violator back to the patrol vehicle.

E. OFFICER/VIOLATOR CONTACT

Officers should realize that a vehicle traffic stop is an emotionally traumatic experience for many violators. Officers should try to make each contact educational and leave the violator with the impression that the officers have performed a necessary task in a professional and courteous manner. Additionally, officers must:

- 1. Be alert at all times for the unexpected, while avoiding being obviously apprehensive;
- 2. Present a professional image and demeanor;
- 3. Be absolutely certain that the observations of the traffic violation were accurate, without reservations;
- 4. Be prepared for the contact by having the appropriate equipment and forms immediately available;
- 5. Greet the violator in a courteous, professional such as "sir or ma'am";
- 6. After identifying yourself and stating the violation, ask for the violator's driver's license or other form of identification if a driver's license is not available;
- 7. Allow the violator to discuss the citation, within reason and not argue with the violator or berate, belittle, or otherwise verbally abuse them;
- 8. Complete all appropriate paperwork if a citation is issued. If the officer returns to the patrol vehicle to complete the paperwork, the officer should intermittently glance at the violator's vehicle and be alert for any suspicious activity or sudden movement.
- 9. Explain the violation in detail and provide all required information, as detailed in established procedures governing traffic enforcement and traffic arraignment. Obtain the violator's signature, if applicable, on any citations issued (CALEA 61.1.4);
- 10. Return the violator's driver's license and provide the appropriate copy of the traffic citation;
- 11. Assist the violator in safely returning to the flow of traffic.

12. Officers should employ de-escalation techniques during all violator contacts as appropriate.

F. INTOXICATED DRIVERS

Traffic stops of intoxicated drivers should be in accordance with established procedures governing enforcement of driving under the Influence violations.

G. RADIO TRAFFIC

If time allows, officers should notify the communications center when making a traffic stop and relay the following information:

1. Location of the traffic stop;
2. The vehicle's tag number and state;
3. The vehicle make and color;
4. Any other pertinent information.

H. EMERGENCY EQUIPMENT

1. Officers must use emergency lights in stopping violators.
2. If this fails to gain the attention of the violator, officers should activate the siren.
3. If the violator refuses to stop or attempts to flee, officers must conduct any pursuit in accordance with established procedures governing emergency and pursuit driving.

I. MOTORIST ASSISTANCE

When officers encounter a disabled vehicle in the roadway, the emergency lights must be used to warn approaching motorists of the possible hazard.

J. PARKING

The emergency lights must be used to warn approaching motorists of road hazards.

DEFINITION: Impaired will mean the driver's inability to safely operate a motor vehicle as defined by law. For the purpose of this directive impaired shall be synonymous with intoxicated.

A. DETECTION

The observation of any erratic, dangerous or unusual driving behavior is crucial to establishing the reasonable suspicion for making a traffic stop. Officers should exercise due care and caution when following a possibly impaired driver, and be alert for any unusual or inappropriate reactions. The officer should document all relevant behaviors in the arrest report to substantiate reasonable suspicion. This will provide the officers with clear details of the incident when testifying in court.

The officer should ask the suspected intoxicated driver to exit the vehicle and to perform a series of field sobriety tests.

D. FIELD SOBRIETY TESTS

Officers will attempt to administer a series of field sobriety tests to the suspected intoxicated driver, to determine if the driver's motor skills and coordination are impaired. Field sobriety tests give an indication of the possible level of intoxication.

1. Field sobriety tests should be conducted in an area of relative safety for both officer and the driver.
2. Field sobriety tests should be performed on a relatively level and smooth surface and preferably away from traffic.
3. Distractions should not prevent the administration of field sobriety tests, but should be taken into account when evaluating results.
4. The determination of which sobriety tests to administer will be made by each officer and may vary with each officer's ability to administer and/or interpret each test.
5. The ability of the driver and/or the terrain may affect which field sobriety tests the officer chooses to use. Field sobriety tests should include the following standardized field sobriety tests:
 - a. Horizontal Gaze Nystagmus;

- b. Walk and Turn; and
 - c. One Leg Stand.
6. Additionally, officers may conduct one or more of the following supplemental tests:
- a. Rhomberg alphabet;
 - b. Finger to nose;

 - d. Backwards number count.

Note: Officers should document the results of all field sobriety tests for the purpose of probable cause and to be used as testimonial evidence in the event of trial.

E. ARRESTS

- 1. In the event of an arrest, the officer should handcuff the suspect in accordance with existing arrest procedures.
- 2. In establishing probable cause, the officer shall ensure the vehicle is operable.

- 3. The person must be lawfully arrested for any offense arising out of acts committed while the person was driving a motor vehicle on the public highway of the State of Alabama while under the influence of intoxicating liquor.

G. CHEMICAL TESTING

- 1. Offenders will be directed to submit to a chemical breath test to determine the alcoholic content of their blood. The testing will be conducted according to current procedures.
- 2. If a DUI arrestee requests a separate blood test, he or she will be allowed to have such test, but only at his or her expense and after completion of the department's breath test.

3. If a blood or urine test is requested, the arrestee will be transported to the nearest medical facility.

H. DUI KITS

Officers needing to utilize a DUI kit will use the kit provided by the Alabama Department of Forensic Sciences.

I. DUI ON PRIVATE PROPERTY

Officers may arrest an impaired driver on private property if probable cause exists. Officers should be aware that the implied consent law applies only to the public roadways of the State of Alabama; however, officers should offer the option of the chemical test of the arrested person's breath.

1. An attempt should be made to identify and notify the owner.
2. If contact is made with the owner, the owner should be given a reasonable amount of time based on officer's discretion to move the vehicle. The amount of time deemed reasonable and safe will depend upon the circumstances and degree of hazard.

3. If no contact is made, the officer may request a rotation wrecker.
4. If a vehicle is towed because it is blocking traffic or is otherwise in violation of a local or state law, the proper citation will be issued and a report must be completed by the impounding officer.

minutes the wrecker has not arrived on the scene, the investigating officer may cancel the initial wrecker and request a secondary wrecker unless the wrecker has not arrived on scene and the driver has requested a ten minute extension. Under no circumstances should a primary wrecker be allowed to tow once a secondary wrecker has been dispatched.

5. If a wrecker other than the one dispatched arrives at the scene, it will not be allowed to tow the vehicle unless it had been contacted directly by the owner of the vehicle and prior to the impoundment.
